Behind Enemy Lines Combined Operations 3:

Combined Operations, 2023-01-05 From the warmer climate of the Mediterranean to the frozen wastes of Norway's Arctic islands the Combined Operations organization was a persistent thorn in the side of Hitler's Third Reich. From mounting attacks against enemy-held coastlines with small teams of less than a dozen men through to huge expeditions involving thousands of troops and other personnel the headquarters of Combined Operations oversaw a wide variety of amphibious operations all undertaken with the sole aim of tying down the Führer's forces. The raids, both big and small, were mounted as frequently as possible against anywhere boats could reach, keeping the Axis forces constantly on guard. The effects of the early Combined Operations far outweighed the resources committed to the raids, with an extra 30,000 German troops being sent to garrison Norway following the Commando raids, the largest of which included only around 500 men. The Combined Operations organization grew as the war progressed and it was instrumental in the planning and training of troops and the provision of landing craft for the amphibious assaults which saw the capture of French North Africa (Operation Torch) and the invasion of Sicily (Operation Husky). Its culminating glory came in the summer of 1944 when the largest amphibious operation in history saw a quarter of a million men shipped across the English Channel to the beaches of Normandy on D-Day and its aftermath. *Combined Operations* is an official history that explores the full story of how the body was set up, its structure and how it put together the hugely complex tri-service operations. Also detailed is how its headquarters staff operated and how the planning section functioned in 1942, for example, the planners envisaged one raid every month which culminated in the disastrous Dieppe raid in August of that year. The Combined Operations organization was also instrumental in the development and provision of specialist landing craft and ships and of the clearing of beach obstacles and mines, all of which is explored in detail. As might be expected, a large proportion of the book is dedicated to the various and fascinating projects in preparation for Operation Overlord, which saw the culmination of everything that had been learned in the successes and failures throughout four years of amphibious warfare.

SAS Zero Hour Tim Jones, 2017-10-30 The historian and author of *Postwar Counterinsurgency* and the SAS reveals the full story of how the Special Air Service Regiment began during WWII. Britain's elite Special Air Service Regiment is one of the most revered special ops units in the world. Its high-profile operations include the storming of the Iranian Embassy in London in 1980 and the hunt for Osama bin Laden in southern Afghanistan following 9/11. Since its inception during the Second World War, the SAS has become a byword for the highest possible standards in both conventional and unorthodox methods of warfare. In *SAS Zero Hour*, military historian and SAS expert Tim Jones offers fascinating new insight into how this elite regiment began. It is commonly held that the unit was the brainchild of just one man, David Stirling. While not dismissing Stirling's considerable contribution, Jones's historical investigation reveals many other factors that played a part in shaping the SAS, including the roles of military deception specialist Dudley Clarke, Field Marshals Archibald Wavell and Claude Auchinleck, and others. Drawing extensively on primary

sources as well as reassessing the more recent regimental histories and memoirs SAS Zero Hour is The most comprehensive and enlightening version of these seminal events yet Sir Ranulph Fiennes from the Forward

Imperial War Museums' Book of War Behind Enemy Lines Julian Thompson, 2018-04-30 An account of the various units of the British special forces used during the Second World War perfect for military enthusiasts and WWII history buffs War Behind Enemy Lines tells the unvarnished story of British Special Forces in the Second World War While the SAS and SBS remain household names today there were a plethora of lesser known units large and small that played their part before departing the scene Of special note was the Long Range

Desert Group LRDG formed in North Africa who imparted their skills to David Stirling's SAS in the early days. The Special Boat Sections and Squadron and other Royal Marine units inflicted great damage. Popski's Private Army used heavily armed jeeps effectively in Italy while the Jedburghs parachuted in to assist the French Resistance. In Burma the Chindits under the controversial Orde Wingate conducted deep penetration patrols against the Japanese suffering heavy casualties from enemy action and disease. Drawing on personal accounts as well as official records Julian Thompson paints a vivid picture of the operations and contribution of these and other units. He also analyses using his own experience the reasons for the resulting successes and failures. There is unlikely to be a more comprehensive and authoritative account of the Golden Age of British Special Forces.
