Springhall,2008-04-14 A thorough survey of the origins and development of the major distinct American commercial entertainments that emerged between over the course of the 19th century and into the 20th including P T Barnum's American Museum freak show and circus as well as blackface minstrelry Buffalo Bill's Wild West Show and vaudeville Opera, Emotion, and the Antipodes Volume I Jane Davidson,Michael Halliwell,Stephanie Rocke,2020-12-29 There can be little doubt that opera and emotion are inextricably linked From dramatic plots driven by energetic producers and directors to the conflicts and triumphs experienced by all associated with opera's staging to the reactions and critiques of audience members emotion is omnipresent in opera Yet few contemplate the impact that the customary cultural practices of specific times and places have upon opera's ability to move emotions Taking Australia as a case study this two volume collection of extended essays demonstrates that emotional experiences discourses displays and expressions do not share universal significance but are at least partly produced defined and regulated by culture Spanning approximately 170 years of opera production in Australia the authors show how the emotions associated with the specific cultural context of a nation steeped in egalitarian aspirations and marked by increasing levels of multiculturalism have adjusted to changing cultural and social contexts across time Volume I adopts an historical predominantly nineteenth century perspective while Volume II applies historical musicological and ethnological approaches to discuss subsequent Australian operas and opera productions through to the twenty first century With final chapters pulling threads from the two volumes together Opera Emotion and the Antipodes establishes a model for constructing emotion history from multiple disciplinary perspectives **Staged Readings** Michael D'Alessandro,2022-09-26 Staged Readings studies the social consequences of 19th century America's two most prevalent leisure forms theater and popular literature In the midst of watershed historical developments including numerous waves of immigration two financial Panics increasing wealth disparities and the Civil War American theater and literature were developing at unprecedented rates Playhouses became crowded with new spectators best selling novels flew off the shelves and all the while distinct social classes began to emerge While the middle and upper classes were espousing conservative literary tastes and attending family matinees and operas laborers were reading dime novels and watching downtown spectacle melodramas like *Nymphs of the Red Sea* and *The Pirate's Signal* or *The Bridge of Death* As audiences traveled from the reading parlor to the playhouse and back again they accumulated a vital sense of social place in the new nation In other words culture made class in 19th century America Based in the historical archive Staged Readings presents a panoramic display of mid century leisure and entertainment It examines best selling novels such as Harriet Beecher Stowe's *Uncle Tom's Cabin* and George Lippard's *The Quaker City* But it also analyzes a series of sensational melodramas parlor theatricals

Testimonial Advertising in the American Marketplace M. Moskowitz, 2009-11-23 This book explores the history and practice of testimonial advertising in the United States from the mid nineteenth century to the present day addressing a surprising lack of scholarship on this enduring and pervasive marketing tool Treating consumers as neither the victims nor the empowered foes of corporate practices the authors gathered here contribute to new scholarship at the intersection of cultural and business history by examining how testimonials mediate negotiations between producers and consumers and shape modern cultural attitudes about social identity advice community celebrity and the consumption of brand name goods and services

Paris Blues Andy Fry, 2024-05-31 The Jazz Age The phrase conjures images of Louis Armstrong holding court at the Sunset Cafe in Chicago Duke Ellington dazzling crowds at the Cotton Club in Harlem and star singers like Bessie Smith and Ma Rainey But the Jazz Age was every bit as much of a Paris phenomenon as it was a Chicago and New York scene In Paris Blues Andy Fry provides an alternative history of African American music and musicians in France one that looks beyond familiar personalities and well rehearsed stories He pinpoints key issues of race and nation in France s complicated jazz history from the 1920s through the 1950s While he deals with many of the traditional icons such as Josephine Baker Django Reinhardt and Sidney Bechet among others what he asks is how they came to be so iconic and what their stories hide as well as what they preserve Fry focuses throughout on early jazz and swing but includes its re creation reinvention in the 1950s Along the way he pays tribute to forgotten traditions such as black musical theater white show bands and French wartime swing Paris Blues provides a nuanced account of the French reception of African Americans and their music and contributes greatly to a growing literature on jazz race and nation in France

Music and the Making of a New South Gavin James Campbell, 2005-12-15 Startled by rapid social changes at the turn of the twentieth century citizens of Atlanta wrestled with fears about the future of race relations the shape of gender roles the impact of social class and the meaning of regional identity in a New South Gavin James Campbell demonstrates how these anxieties were played out in Atlanta s popular musical entertainment Examining the period from 1890 to 1925 Campbell focuses on three popular musical institutions the New York Metropolitan Opera which visited Atlanta each year the Colored Music Festival and the Georgia Old Time Fiddlers Convention White and black audiences charged these events with deep significance Campbell argues turning an evening s entertainment into a struggle

between rival claimants for the New South's soul. Opera, spirituals, and fiddling became popular not just because they were entertaining but also because audiences found them flexible enough to accommodate a variety of competing responses to the challenges of making a New South. Campbell shows how attempts to inscribe music with a single public fixed meaning were connected to much larger struggles over the distribution of social, political, cultural, and economic power. Attitudes about music extended beyond the concert hall to simultaneously enrich and impoverish both the region and the nation that these New Southerners struggled to create.
