Commercial Communication in the Digital Age Gabriele Siegert,M. Björn Rimscha,Stephanie Grubenmann,2017-04-10 In today s digital age online and mobile advertising are of growing importance with advertising no longer bound to the traditional media industry Although the advertising industry still has broader access to the different measures and channels users and consumers today have more possibilities to publish get informed or communicate to co create and to reach a bigger audience There is a good chance thus that users and consumers are better informed about the objectives and persuasive tricks of the advertising industry than ever before At the same time advertisers can inform about products and services without the limitations of time and place faced by traditional mass media But will there really be a time when advertisers and consumers have equal power or does tracking users online and offline lead to a situation where advertisers have more information about the consumers than ever before The volume discusses these questions and related issues

Black Ops Advertising Mara Einstein,2016-09-01 From Facebook to Talking Points Memo to the New York Times often what looks like fact based journalism is not It s advertising Not only are ads indistinguishable from reporting the Internet we rely on for news opinions and even impartial sales content is now the ultimate corporate tool Reader beware content without a corporate sponsor lurking behind it is rare indeed Black Ops Advertising dissects this rapid rise of sponsored content a strategy whereby advertisers have become publishers and publishers create advertising all under the guise of unbiased information Covert selling mostly in the form of native advertising and content marketing has so blurred the lines between editorial content and marketing message that it is next to impossible to tell real news from paid endorsements In the 21st century instead of telling us to buy buy BUY marketers engage with us so that we share share SHARE the ultimate subtle sell Why should this concern us Because personal data personal relationships and our very identities are being repackaged in pursuit of corporate profits Because tracking and manipulation of data make likes and tweets and followers the currency of importance rather than scientific achievement or artistic talent or information the electorate needs to fully function in a democracy And because we are being manipulated to spend time with technology to interact with friends to always be on even when it is to our physical and mental detriment

Bard,2023-12-18 This book examines how Generation Z defined by their orientation as social media natives grew up in a media system centered around social media D Jasun Carr and Mitchell T Bard explore how Gen Z consumes news media differently than other cohorts and how this shift in consumption affects both the members of Gen Z the media and media scholarship The authors take a media ecology approach to laying out the new media landscape in which Gen Z was raised

before looking at how this new ecology affects many of the traditional theories and underpinnings of media effects media psychology and journalism Through the use of original experimental research and the compilation of extant theory and survey data Carr and Bard argue that while members of Gen Z eschew the more traditional structures of the media ecosystem in favor of those that incorporate a social element they nevertheless behave in many ways similarly to those who came before Scholars of communication media studies social media and journalism will find this book of particular interest
