Singapore Perspectives 2013 Gillian Koh, 2014 This book focuses on governance or how a society governs itself across the

state business and civic sectors in Singapore and how it might evolve over the next decade Designing Behavioural Insights for Policy Ishani Mukherjee, Assel Mussagulova, 2024-05-16 The diversity of knowledge surrounding behavioural insights BI means in the policy sciences although visible remains under theorized with scant comparative and generalizable explorations of the procedural prerequisites for their effective design both as stand alone tools and as part of dedicated policy toolkits While comparative analyses of the content of BI tools has proliferated the knowledge gap about the procedural needs of BI policy design is growing recognizably as the range of BI responses grows in practice necessitating specific capabilities processes and institutional frameworks to be in place for their design This Element draws on the literature on policy design and innovation adoption to explore the administrative institutional and capacity endowments of governments for the successful and appropriate integration of BI in existing policy frameworks Further we present three illustrative cases with respect to their experience of essential procedural endowments facilitating for the effective integration of BI in policy design Hard Choices Sudhir Thomas Vadaketh, Donald Low, 2014-04-21 Singapore is changing The consensus that the PAP government has constructed and maintained over five decades is fraying The assumptions that underpin Singaporean exceptionalism are no longer accepted as easily and readily as before Among these are the ideas that the country is uniquely vulnerable that this vulnerability limits its policy and political options that good governance demands a degree of political consensus that ordinary democratic arrangements cannot produce and that the country's success requires a competitive meritocracy accompanied by relatively little income or wealth redistribution But the policy and political conundrums that Singapore faces today are complex and defy easy answers Confronted with a political landscape that is likely to become more contested how should the government respond What reforms should it pursue This collection of essays suggests that a far reaching and radical rethinking of the country's policies and institutions is necessary even if it weakens the very consensus that enabled Singapore to succeed in its first fifty years **Advanced Introduction to Behavioral Economics** John F.
