The Dark Places of Business Enterprise Pietro Frigato, Francisco J. Santos-Arteaga, 2019-04-05 This book considers Thorstein Veblen's central preoccupation with the dark places of business enterprise an integral part of the old institutional economics Combining the contributions made by Karl William Kapp and Philip Mirowski it proposes the systematization of an adjoined institutional theory of social costs of business enterprise useful for the analysis of contemporary crises The Dark Places of Business Enterprise explores the research potential of the theory of social costs for the analysis of actual business behavior in the current globalized privatization regime It begins with a detailed outline of Veblen's critique of business enterprise and market competition before illustrating the methodical enrichment of this approach through Kapp's work Finally it concludes by proposing the integration of the Veblenian Kappian approach with Mirowski's theory of markets and business doubt manufacture The resulting theory of social costs will shed light on the ubiquitous business control of society under the now dominant computer based technological infrastructure This interdisciplinary foundation of the theory of social costs encompassing knowledge from computer science and engineering to natural sciences provides the tools required to analyze this great transformation

The Contamination of the Earth Francois Jarrige, Thomas Le Roux, 2021-11-16 The trajectories of pollution in global capitalism from the toxic waste of early tanneries to the poisonous effects of pesticides in the twentieth century Through the centuries the march of economic progress has been accompanied by the spread of industrial pollution As our capacities for production and our aptitude for consumption have increased so have their byproducts chemical contamination from fertilizers and pesticides diesel emissions oil spills a vast plastic continent found floating in the ocean

The Contamination of the Earth offers a social and political history of industrial pollution mapping its trajectories over three centuries from the toxic wastes of early tanneries to the fossil fuel energy regime of the twentieth century Overcoming Environmental Risks to Achieve Sustainable Development Goals Tamie Nakajima, Keiko Nakamura, Keiko Nohara, Akihiko Kondoh, 2021-11-18 This thought provoking book examines how the accumulated knowledge on past and present environmental issues and risks within Japan can be applied in order to help deliver the transformation to a sustainable and well being society The book opens with a series of case analyses on environmental pollution events and pollution related diseases within the country over the past half century or more Lessons learned regarding the harm to society are highlighted Diverse current environmental issues are then explored in detail ranging from the management of hazardous chemical and asbestos exposure to marine plastic pollution and nuclear disasters This discussion forms the basis for the final part of the book which focuses on how progress can be made towards the Sustainable Development Goals set out in the United Nations 2030 Agenda for Sustainable Development Important insights are also provided into future directions in human ecology and ecotoxicology The book will be a valuable resource for both new and established researchers as well as for those seeking comprehensive information on environmental occupational health and health promotion Asia-Pacific Disaster Management Simon Butt, Hitoshi Nasu, Luke Nottage, 2013-10-29 The book outlines the regulatory environment for disaster prevention and management in broad social economic and political context The first half of the book focuses mainly on Japan especially the 3 11 events the earthquake and tsunami that devastated the Tohoku area on 11 March 2011 and the Fukushima Daiichi nuclear power plant radiation leaks The second half focuses on the USA the only other Asia Pacific country to have experienced a serious nuclear emergency Indonesia China New Zealand Australia and international law One question explored is whether socio legal norms play different roles in preventing and managing responses to natural disasters compared to man made disasters Another is how disaster law interacts with society across very diverse societies in the disaster prone Asia Pacific region The book also addresses the increasingly important roles played by international law and regional regimes for cross border cooperation in disaster prevention and relief including the functions played by military forces Erudite pragmatic and charged with detailed substantive knowledge of an astonishing range of contexts and research fields this timely collection of important essays on the law and society of disaster management stands as an exemplary international academic response to the disasters of 11 March 2011 Annelise Riles The Secret History of the War on Cancer Devra Davis, 2009-02-24 From the National Book Award finalist and author of When Smoke Ran Like Water comes this searing haunting and deeply personal account of how a major public health effort was diverted and distorted for private gain **Learning from Disaster** Sheila Jasanoff, 2016-11-11 Selected by Choice magazine as an Outstanding Academic Title The 1984 lethal gas leak at the Union Carbide pesticide plant in Bhopal India may be the most extensively studied industrial disaster in history In a departure from earlier studies that have focused primarily on the causes of the catastrophe

Sheila Jasanoff and the contributors to this volume critically examine the consequences of the accident
