Sharif, 2023-10-12 Oil and Development in the Arab Gulf States 1985 brings together in one volume the manifold sources of information on the Arab Gulf region especially the impact of oil revenues on its economic political and social development It provides a balanced core of primary and secondary sources on various aspects of the economics of Arab oil between 1973 and 1983 **Gulf Security in the Twenty-First Century** David

E. Long, Christian Koch, 1998-08-27 The connection between regional instability and the preservation of global security is nowhere more sensitive than in the Gulf Events since the 1990 1991 Gulf War continue to confirm the fragile interaction among states in the region and their susceptibility to external forces Gulf Security in the Twenty First Century brings together some of the foremost area experts to explore the most pressing issues including military threats to the region obstacles to economic development and socioeconomic harmonization and challenges to political stability In particular the work examines Iran s often enigmatic foreign policy vis vis its Gulf neighbors Iraq s resurgent military threat choices and constraints confronting US Middle East policy and Europe s inability to identify and pursue a united policy to safeguard its economic interests in the area These topics are further illuminated with an analysis of Russia s historical attempt at balancing foreign policy objectives in the Gulf with its enduring interests in Central Asia The potentially explosive issues of religious radicalism and the challenges of democratic pluralism are discussed in an effort to ascertain the potential of political Islam to disturb or enhance regional security Similarly the problems inhibiting the settlement of territorial disputes in and around the Gulf are brought into focus to illustrate lingering historical tensions among neighboring states To round out the book s topical coverage several contributors shed light on the region s unfettered dependence on foreign labor growing demographic pressures associated social and economic transformations and challenges to responsive public policy

The A to Z of the Gulf Arab States Malcolm C. Peck, 2010-04-12 The A to Z of the Gulf Arab States comes at a time when the world s attention is riveted on the Middle East The small states covered in this volume Bahrain Kuwait Oman Qatar and the United Arab Emirates UAE possess about 20 percent of the world s total oil reserves Beyond the strategic and economic importance conferred upon them by their vast oil reserves the Gulf Arab states are worthy of attention for the inherent interest of their history and culture No area of the world has yielded more revealing and exciting archaeological finds in the past few decades than these states Investigations have brought to light extensive evidence of an important culture as old as Egypt of the Pharaohs or ancient Babylon which was virtually unknown previously except through rare references in the records of other civilizations The A to Z of the Gulf Arab States is a paperback reprint of the Historical Dictionary of the Gulf

Arab States This edition covers the history of the five countries through a chronology broken down by country a list of acronyms and abbreviations an introductory essay a bibliography and several hundred cross referenced dictionary entries on important persons places and events of each country Everything from the Abbasids to Zubarah is covered in this essential reference on this increasingly important region of the world

Oil and Politics in the Gulf Jill Crystal,1995-01-27 This book asks why in recent years the social and economic upheavals in Kuwait and Qatar have been accompanied by a remarkable political continuity

Political Transformation of Gulf Tribal States Shaul Yanai,2014-09-01 The reform movements and attempts to establish parliamentary institutions in the Persian Gulf states of Kuwait Bahrain and Dubai between the First World War and the independent era of the 1970s were not inspired by western example or by any tradition of civil representation The move to a parliamentary system not only represented a milestone in the history of the region creating a legacy for future generations but was a unique transition in the Arab world The transformation of these states from loose chieftdoms of minimal coherence and centralization into centralizing and institutionalized monarchies involved the setting up of primary institutions of government the demarcation of borders and establishment of a monarchical order As this new political and social order evolved ideas of national struggle and national rights penetrated Gulf societies Gulf citizens who had spent time in Arab states mostly in Egypt and Iraq took part in the genesis of a public Arab Gulf national discourse enabling the Gulf population to become acquainted with national struggles for independence As a result merchants of notable families newly educated elements and even workers began to oppose the dominance of the rulers Both the rulers and the commercial elites including members of the ruling families tried to formulate a new and different social contract with the rulers seeking to entrench their political power by using new administrative means and financial power Opposition against this current crystallized in 1938 among the ranks of the commercial oligarchy as well as within the ruling families In spite of its failure to create its own political institutions the oligarchy remained the foremost social and economic class But the ruling families could no longer treat national oil revenues as their private income and they began to channel part of these funds to public needs The most important consequence of the 1938 movement was the formation of a new social contract between the two traditional power centers the governing structures were fitted into the political and economic reality brought about by the oil wealth but remained essentially tribal and committed to the power division between the major Gulf families

Gulf Security in the Twenty-First Century Prof. Jamal Sanad Al-Suwaidi,2014 The connection between regional instability and the preservation of global security is nowhere more sensitive than in the Gulf Events since the 1990 1991 Gulf War continue to confirm the fragile interaction among states in the region and their susceptibility to external forces Gulf Security in the Twenty First Century brings together some of the foremost area experts to explore the most pressing issues including military threats to the region obstacles to economic development and socioeconomic harmonization and challenges to political stability In particular the work examines Iran s often enigmatic foreign policy vis vis its Gulf neighbors Iraq s

resurgent military threat choices and constraints confronting US Middle East policy and Europe's inability to identify and pursue a united policy to safeguard its economic interests in the area. These topics are further illuminated with an analysis of Russia's historical attempt at balancing foreign policy objectives in the Gulf with its enduring interests in Central Asia. The potentially explosive issues of religious radicalism and the challenges of democratic pluralism are discussed in an effort to ascertain the potential of political Islam to disturb or enhance regional security. Similarly, the problems inhibiting the settlement of territorial disputes in and around the Gulf are brought into focus to illustrate lingering historical tensions among neighboring states. To round out the book's topical coverage, several contributors shed light on the region's unfettered dependence on foreign labor, growing demographic pressures, associated social and economic transformations, and challenges to responsive public policy.

The Politics of African and Middle Eastern States Anne Gordon Drabek, Wilfrid Knapp, 2013-10-22. *The Politics of African and Middle Eastern States: An Annotated Bibliography* is a record of books written about the politics, history, and the lives of the leaders of Africa and the Middle East. The book is divided per chapter according to the geographical area being discussed. Each chapter contains a list of books that fall under the following categories: Political History, Political Systems and Government, Biographies, Memoirs, Speeches, and Writings, and External Relations. Chapters I to VII cover different regions of Africa, while Chapters VIII to XI cover the Middle East. The text is recommended for historians and political scientists, especially those interested in the areas mentioned in the book. The selection also serves as a guide to those who plan to have further readings or make a paper about the political history, government, and development of the areas mentioned.

China's Foreign Policy in the Arab World, 1955-75 Hashim S.H. Behbehani, 2020-09-10. China's foreign policy in the Arab world is important because it reflects China's general foreign policy. In this study, first published in 1981, the author draws upon a wealth of previously unpublished and inaccessible material to analyse Chinese attitudes in three cases: the two Arab liberation movements, the Palestine Resistance Movement, and the Popular Front for the Liberation of the Oman, and the established and independent State of Kuwait. Since the Arab liberation movements played a significant political role within their fields of operation, it was necessary for China to decide whether these movements did actually fit in with Chinese foreign policy objectives. Dr Behbehani's analysis of these two case studies provides the basis for a discussion of whether China's motives in supporting the liberation movements are theoretical or purely practical. China's support for Kuwait's political internal continuity is related to the stability of the whole Gulf region. The author analyses Chinese support for Kuwait and the surrounding conservative states on two main bases: political and economic, in the form of trade. It is through these channels, particularly the economic one, that China has sought to establish itself in the Gulf and the Arabian peninsula.
