relevant to the distinctions of absolute truth and relativistic assumptions Our age is accurately referred to as the age of advancement and technology and for good reason The rapid pace of progression over the last century in the life sciences has contributed to a broadened understanding of knowledge itself and its relation to the psychological and sociological aspects of our existence As a result of the significant expansion of the sciences the desire for an understanding of self and simply of why has in many ways been diluted thus negating the never ending questions that once tugged at man's conscious in the middle of the night for thousands of years Today's amazing achievements have laid the foundation for a whole series of newer problems and questions that threaten mankind as never before The medical and biological sciences have enabled us to have a life expectancy beyond that of prior generations however coupled with that are the problems of population explosion which in the not too distant future will give rise to serious concerns We have the ability to harness the power of the atom yet along with it comes the ability to destroy all that we hold sacred Taking into consideration the advanced age we live in how does one account for the remarkable complexity extant throughout the known universe Is one to assume that our consciousness coupled with our overwhelming sense of purpose can be attributed solely to random chance alone The law of causation deals with the need for a preceding event leading to the outcome and despite the fact that this scientific age has left its handprint on every facet of life today it has failed to satisfy the innate question of simply why The Revenge of Conscience J.

Budziszewski,2010-06-01 Describing the political effects of Original Sin Professor Budziszewski shows how man's suppression of his knowledge of right and wrong corrupts his conscience and accelerates social collapse The depraved conscience grasps at the illusion of moral neutrality the absurd notion that men live together without a shared understanding of how things are After evaluating the political devices including the American Constitution by which men have tried in the past to work around the effects of Original Sin Dr Budziszewski elucidates the pitfalls of contemporary communitarianism liberalism and conservatism **2009 Writer's Market** Robert Brewer,2008-06-01 For 88 years Writer's Market has given
