Assessing Service Quality Satisfying The Expectations Of Library Customers Third Edition:

Assessing Service Quality Peter Hernon, Ellen Altman, Robert E. Dugan, 2015-05-12 Academic and public libraries are continuing to transform as the information landscape changes expanding their missions into new service roles that call for improved organizational performance and accountability Since *Assessing Service Quality* premiered in 1998 receiving the prestigious Highsmith Library Literature Award scores of library managers and administrators have trusted its guidance for applying a customer centered approach to service quality and performance evaluation This extensively revised and updated edition explores even further the ways technology influences both the experiences of library customers and the ways libraries themselves can assess those experiences With a clear focus on real world application the authors Challenge conventional thinking about the utility of input output and performance metrics by suggesting new ways to think about the evaluation and assessment of library services Explain service quality and customer satisfaction and demonstrate how they are separate but intertwined Identify procedures for qualitatively and quantitatively measuring both service quality and satisfaction Encourage libraries to take action by presenting concrete steps they can take to become more customer centric Offer a range of customer related metrics that provide insights useful for library planning and decision making such as surveys and focus groups This book shows how to nurture an environment of continuous improvement through effective service quality assessment **Assessing Service Quality**, 2015 **Fundamentals of Collection Development and Management, Fourth Edition** Peggy Johnson, 2018-07-23

Technical Services Quarterly declared that the third edition must now be considered the essential textbook for collection development and management the first place to go for reliable and informative advice For the fourth edition expert instructor and librarian Johnson has revised and freshened this resource to ensure its timeliness and continued excellence Each chapter offers complete coverage of one aspect of collection development and management including numerous suggestions for further reading and narrative case studies exploring the issues Thorough consideration is given to traditional management topics such as organization of the collection weeding staffing and policymaking cooperative collection development and management licenses negotiation contracts maintaining productive relationships with vendors and publishers and other important purchasing and budgeting topics important issues such as the ways that changes in information delivery and access technologies continue to reshape the discipline the evolving needs and expectations of library users and new roles for subject specialists all illustrated using updated examples and data and marketing liaison activities and outreach As a comprehensive introduction for LIS students a primer for experienced librarians with new collection development and management responsibilities and a handy reference resource for practitioners as they go about their day to day work the value and usefulness of this book remain unequaled Information Services Today Sandra Hirsh, 2018-03-02 This second edition of *Information Services Today* An Introduction demonstrates the ever changing landscape of information services today and the need to re evaluate curriculum competency training and

one's personal learning network in order to stay abreast of current trends and issues and more significantly remain competent to address the changing user needs of the information community. Specifically, the book provides a thorough introduction, history, and overall state of the field, gives a diverse and global perspective of what it means to be a library and information professional today, addresses why information organizations and information and technological literacy are more important today than ever before, discusses how technology has influenced the ways that information professionals provide information resources and services in today's digital environment, highlights current issues and trends, and provides expert insight into emerging challenges, innovations, and opportunities for the future, and identifies career management strategies and leadership opportunities in the information profession. The new edition features chapter updates to address changes in information services, introducing new topics such as strategic planning, change management, design thinking, advocacy, and data management and analysis, and includes new contributing authors. The book begins with an overview of libraries and their transformation as information and technological hubs within their local and digital communities. It covers the various specializations within the field, emphasizing the exciting yet complex roles and opportunities for information professionals in a variety of information environments. With that foundation in place, it presents the fundamentals of information services, delves into management skills needed by information professionals today, and explores emerging issues related to the rapid development of new technologies. The book addresses how libraries and information centers serve different kinds of communities, highlighting the unique needs of increasingly diverse users and how information organizations and information professionals work to fulfill those needs. This book provokes discussion, critical thinking, and interaction to facilitate the learning process. The content and supplemental materials, discussion questions, rich sets of online accessible materials, multimedia webcast interviews featuring authors from this book discussing the trends and issues in their respective areas, and chapter presentation slides for use by instructors, give readers the opportunity to develop a deeper understanding of and engagement with the topics. Additionally, this book recognizes the broad range of environments that people with Master of Library and Information Science (MLIS) degrees work in, which include both libraries and other information environments. Thus, this book does not only focus on libraries but instead encompasses ALL kinds of information organizations.
