 Communion William A. Dembski,2016-04-15 For a thing to be real it must be able to communicate with other things If this is
 so then the problem of being receives a straightforward resolution to be is to be in communion So the fundamental science
 indeed the science that needs to underwrite all other sciences is a theory of communication Within such a theory of
 communication the proper object of study becomes not isolated particles but the information that passes between entities In

Being as Communion philosopher and mathematician William Dembski provides a non technical overview of his work on information Dembski attempts to make good on the promise of John Wheeler Paul Davies and others that information is poised to replace matter as the primary stuff of reality With profound implications for theology and metaphysics Being as Communion develops a relational ontology that is at once congenial to science and open to teleology in nature All those interested in the intersections of theology philosophy and science should read this book
