It's ideal for office desktop publishing use, whether your organization is involved in business, government, or education. And its networking compatibility makes it a natural for workgroups that use multiplatform local area networks or organizationwide "intranets."

Featuring an advanced laser printer engine, the Apple LaserWriter 12/640 PS can handle up to 12 pages per minute, at an impressive 600 dots per inch. Its built-in FinePrint technology and support for PhotoGrade enable this printer to provide crisp, clear text and superior-quality gray-scale images. And the LaserWriter 12/640 PS can print on a wide range of media—from A4 paper to postcard stock, and even transparencies and labels—and on paper weights from 16 to 50 pounds.

Different organizations have different paper-handling needs—a fact that the Apple LaserWriter

There's a duplex-printing option, so you can get professional-looking double-sided output without resorting to a copy machine. In addition, there's a 500-sheet cassette and feeder for large jobs (or larger workgroups), envelope cassette that works with the 500-sheet feeder to handle a wide variety of envelopes (and even postcards), and a special face-up output tray (ideal for printing on transparencies, labels, postcards, envelopes, or heavier paper stocks because it reduces page curl).

Yet for all of its quality, performance, and flexibility, the LaserWriter 12/640 PS remains an economical laser printing solution—made even more affordable by this printer's outstanding networking capability, which enables flexible printer sharing on a wide variety of networks. It even comes with Adobe PostScript Level 2 and PCL 5—so no matter what type of computer and which applications you're using, if you choose the LaserWriter 12/640 PS, you and your colleagues can start printing high-quality output immediately.
