Alien Ocean Stefan Helmreich, 2023-09-01 *Alien Ocean* immerses readers in worlds being newly explored by marine biologists worlds usually out of sight and reach the deep sea the microscopic realm and oceans beyond national boundaries Working alongside scientists at sea and in labs in Monterey Bay Hawai i the Woods Hole Oceanographic Institution and the Sargasso Sea and at undersea volcanoes in the eastern Pacific Stefan Helmreich charts how revolutions in genomics bioinformatics and remote sensing have pressed marine biologists to see the sea as animated by its smallest inhabitants marine microbes Thriving in astonishingly extreme conditions such microbes have become key figures in scientific and public debates about the origin of life climate change biotechnology and even the possibility of life on other worlds *Alien Ocean* immerses readers in worlds being newly explored by marine biologists worlds usually out of sight and reach the deep sea the microscopic realm and oceans beyond national boundaries Working alongside scientists at sea and in labs in **Alien Ocean** Stefan Helmreich, 2009-01-05 *Alien Ocean* immerses readers in worlds being newly explored by marine biologists worlds usually out of sight and reach the deep sea the microscopic realm and oceans beyond national boundaries Working alongside scientists at sea and in labs in Monterey Bay Hawai i the Woods Hole Oceanographic Institution and the Sargasso Sea and at undersea volcanoes in the eastern Pacific Stefan Helmreich charts how revolutions in genomics bioinformatics and remote sensing have pressed marine biologists to see the sea as animated by its smallest inhabitants marine microbes Thriving in astonishingly extreme conditions such microbes have become key figures in scientific and public debates about the origin of life climate change biotechnology and even the possibility of life on other worlds Hope at Sea Teresa Shewry, 2015-09-16 As far back as Thomas More s *Utopia* and Francis Bacon s *New Atlantis* the Pacific Ocean has inspired literary creations of promising worlds *Hope at Sea* asks how literary writers have more recently conceived the future of ocean living In doing so it provides a new perspective on art and imagination in the face of enormous environmental change Drawing together ecocriticism theories of hope and literary analysis this book explores how literary writers evoke hope in engaging with environmental upheavals that are reshaping life in the Pacific Ocean Teresa Shewry considers contemporary poetry short stories novels art and journalistic pieces from Australia New Zealand Hawai i and other ocean sites examining their imaginative accounts of present life and future living in places where humans coexist with environmental loss rivers that no longer reach the sea dwindling populations of ocean life the effects of nuclear weapons testing and more These works are connected by their views of a future that includes hope Until now hope has never been theorized in a direct sustained way in ecocriticism *Hope at Sea* makes an argument for hope as a lens for creative and critical confrontation with environmental disruptions and the resulting sense of loss It also reflects on the critical approaches that hope as an analytic category opens up for the study of environmental literature With hope as a critical perspective Shewry develops a method for reading environmental literature literary writers create new ways to apprehend existing environmental realities and craft

stories about seas forests cities and rivers that could be not as literal plans but as ways of imagining promising lives in the present world and in the world to come *A Book of Waves* Stefan Helmreich, 2023-07-03 In *A Book of Waves* Stefan Helmreich examines ocean waves as forms of media that carry ecological geopolitical and climatological news about our planet Drawing on ethnographic work with oceanographers and coastal engineers in the Netherlands the United States Australia Japan and Bangladesh Helmreich details how scientists at sea and in the lab apprehend waves materiality through abstractions seeking to capture in technical language these avatars of nature at once periodic and irreversible wild and pacific ephemeral and eternal For researchers and their publics the meanings of waves also reflect visions of the ocean as an environmental infrastructure fundamental to trade travel warfare humanitarian rescue recreation and managing sea level rise Interleaving ethnographic chapters with reflections on waves in mythology surf culture feminist theory film Indigenous Pacific activisms Black Atlantic history cosmology and more Helmreich demonstrates how waves mark out the wakes and breaks of social histories and futures

Otherwhere Ethnography Istvan Praet, Lecturer Department of Anthropology Istvan Praet, Perig Pitrou, 2025 This book offers an introduction to the field of outer space studies by means of a selection of otherwhere ethnographies fine grained accounts of how space exploration is being reconfigured in an age where major nation states are no longer its only prime movers A collective of social scientists and humanities scholars provide detailed accounts of how space research and space enterprises are being rethought in an age where extraterrestrial exploration is no longer the monopoly of a handful of superpowers

Biogenetic Paradoxes of the Nation Sakari Tamminen, 2019-11-22 In 1992 the Convention on Biological Diversity CBD signed by over 160 countries and hailed as the key symbol of a common vision for saving Earth s biodiversity set forth three primary mandates preserving biodiversity using biodiversity components sustainably and enabling economic benefit sharing The CBD which gave signatory countries the ability to claim sovereignty over nonhuman genetic resources native to each nation defined biodiversity through a politics of nationhood in ways that commodified genetic resources In *Biogenetic Paradoxes of the Nation* Sakari Tamminen traces the ways in which the CBD s seemingly compatible yet ultimately paradox ridden aims became manifest in efforts to create conserve and capitalize on distinct animal and plant species In using Finland as a case study with which to understand the worldwide efforts to convert species into manifestations of national identity Tamminen shows how the CBD s policies contribute less to biodiversity conservation than to smoothing the way for frictionless operation of biotechnologically assisted circuits of the global bioeconomy Tamminen demonstrates how an intimate look at the high level politics and technical processes of defining national genetic resources powerfully illuminates the limits of anthropocentric biopolitical theory

Power and Time Dan Edelstein, Stefanos Geroulanos, Natasha Wheatley, 2020-12-11 Time is the backdrop of historical inquiry yet it is much more than a featureless setting for events Different temporalities interact dynamically sometimes they coexist tensely sometimes they clash violently In this innovative volume editors Dan Edelstein Stefanos Geroulanos and Natasha Wheatley challenge

how we interpret history by focusing on the nexus of two concepts power and time as they manifest in a wide variety of case studies Analyzing history culture politics technology law art and science this engaging book shows how power is constituted through the shaping of temporal regimes in historically specific ways Power and Time includes seventeen essays on human rights sovereignty Islamic European Chinese and Indian history slavery capitalism revolution the Supreme Court the Anthropocene and even the Manson Family Power and Time will be an agenda setting volume highlighting the work of some of the world s most respected and original contemporary historians and posing fundamental questions for the craft of history

Cosmopolitan Cultures and Oceanic Thought Dilip M Menon,Nishat Zaidi,2023-03-29 This book imagines the ocean as central to understanding the world and its connections in history literature and the social sciences Introducing the central conceptual category of ocean as method it analyzes the histories of movement and traversing across connected spaces of water and land sedimented in literary texts folklore local histories autobiographies music and performance It explores the constant flow of people material and ideologies across the waters and how they make their presence felt in a cosmopolitan thinking of the connections of the world Going beyond violent histories of slavery and indenture that generate global connections it tracks the movements of sailors boatmen religious teachers merchants and adventurers The essays in this volume summon up this miscegenated history in which land and water are ever linked A significant rethinking of world history this volume will be of great interest to scholars and researchers of history especially connected history and maritime history literature and Global South studies

Deepwater Alchemy Lisa Yin Han,2024-08-27 How underwater mediation has transformed deep sea spaces into resource rich frontiers Green energy technologies such as windmills solar panels and electric vehicles may soon depend on material found at the seabed How did a space once imagined to be empty and unfathomable come to be thought of as a treasure trove of resources Lisa Yin Han traces how contemporary developments in underwater sensing and imaging materially and imaginatively transmogrify the ocean bottom into a resource frontier capable of sustaining a digitally connected global future Set against the backdrop of climate change energy transition and the expansion of industrial offshore extractions Deepwater Alchemy looks at oceanic media and its representation of the seabed in terms of valuable resources From high tech simulations to laboratories and archives that collect and analyze sediments Han explores the media technologies that survey visualize and condition the possibility for industrial resource extraction introducing the concept of extractive mediation to describe the confluences between resource prospecting and undersea knowledge production Moving away from anthropocentric frameworks she argues that we must equalize access to deep ocean mediation and include the submerged perspectives of multispecies communities From the proliferation of petroleum seismology to environmental impact research on seabed mining to the development of internet enabled seafloor observatories Deepwater Alchemy shows us that deepwater mediation is entangled in existential hopes and fears for our planetary future As the ocean bottom becomes increasingly accessible to people Han prompts us to ask not whether we can

tame the seafloor but rather why and for whom are we taming it **Wild Blue Media** Melody Jue, 2020-02-28 In *Wild Blue Media* Melody Jue destabilizes terrestrial based ways of knowing and reorients our perception of the world by considering the ocean itself as a media environment a place where the weight and opacity of seawater transforms how information is created stored transmitted and perceived By recentring media theory on and under the sea Jue calls attention to the differences between perceptual environments and how we think within and through them as embodied observers In doing so she provides media studies with alternatives to familiar theoretical frameworks thereby challenging scholars to navigate unfamiliar oceanic conditions of orientation materiality and saturation Jue not only examines media about the ocean science fiction narratives documentary films ocean data visualizations animal communication methods and underwater art but reexamines media through the ocean submerging media theory underwater to estrange it from terrestrial habits of perception while reframing our understanding of mediation objectivity and metaphor
