All Our Kin Strategies For Survival In A Black Community:

All Our Kin Carol B. Stack, 1997 This book chronicles a young white woman's sojourn into The Flats an African American ghetto community to study the support system family and friends form when coping with poverty Eschewing the traditional method of entry into the community used by anthropologists through authority figures and community leaders she approached the families herself by way of an acquaintance from school becoming one of the first sociologists to explore the black kinship network from the inside The result was a landmark study that debunked the misconception that poor families were unstable and disorganized On the contrary her study showed that families in The Flats adapted to their poverty conditions by forming large resilient lifelong support networks based on friendship and family that were very powerful highly structured and surprisingly complex This text is also an indictment of a social system that reinforces welfare dependency and chronic unemployment

Trotter, E. Lewis, T. Hunter, 2004-03-17 From the early years of the African slave trade to America blacks have lived and laboured in urban environments Yet the transformation of rural blacks into a predominantly urban people is a relatively recent phenomenon only during World War One did African Americans move into cities in large numbers and only during World War Two did more blacks reside in cities

than in the countryside By the early 1970s blacks had not only made the transition from rural to urban settings but were almost evenly distributed between the cities of the North and the West on the one hand and the South on the other In their quest for full citizenship rights economic democracy and release from an oppressive rural past black southerners turned to urban migration and employment in the nation s industrial sector as a new Promised Land or Flight from Egypt In order to illuminate these transformations in African American urban life this book brings together urban history contemporary social cultural and policy research and comparative perspectives on race ethnicity and nationality within and across national boundaries

A Nation of Neighborhoods Benjamin Looker, 2015-10-22 Despite the pundits who have written its epitaph and the latter day refugees who have fled its confines for the half acre suburban estate the city neighborhood has endured as an idea central to American culture In *A Nation of Neighborhoods* Benjamin Looker presents us with the city neighborhood as both an endless problem and a possibility Looker investigates the cultural social and political complexities of the idea of neighborhood in postwar America and how Americans grappled with vast changes in their urban spaces from World War II to the Reagan era In the face of urban decline competing visions of the city neighborhood s significance and purpose became proxies for broader debates over the meaning and limits of American democracy By studying the way these contests unfolded across a startling variety of genres Broadway shows radio plays urban ethnographies real estate documents and even children s programming Looker shows that the neighborhood ideal has functioned as a central symbolic site for advancing and debating theories about American national identity and democratic practice

The Transformation of the Laity in Bergamo, 1265-c.1400 Roisin Cossar, 2006-07-01 This book examines the tension between social mores and religious activities among the laity in the Italian diocese of Bergamo during the later Middle Ages 1265 c 1400 Comparing the religious activities of lay men and women both rich and poor across a range of pious and ecclesiastical institutions including confraternities hospitals parishes and the diocese Roisin Cossar shows how the laity s access to these institutions increasingly came to depend on their gender and social status during the fourteenth century At the same time she argues that all lay people regardless of gender and social status viewed themselves as equal members of a lay ordo The book thus illuminates the complexity of late medieval religious culture as it simultaneously reflected and challenged secular social values

Without Justice For All Adolph Reed, 2018-02-12 *Without Justice for All* The New Liberalism and Our Retreat from Racial Equality questions examines and explains the way a new orthodoxy of American leaders has contributed to the social stratification and inequality which plagues America today By looking at the history of our social policies since the New Deal as well as the status of specific policy arenas essayists show how political shifts over the past fifty years have moved us away from a more egalitarian politics Throughout the book responds critically to the now conventional argument that liberalism must be reconfigured in ways that retreat from immediate identification with the interests of labor minorities and the poor From a look at federal housing policy and the failure of New Deal social programs to an examination of long established

public assistance programs and Affirmative Action Without Justice for All is a timely and important contribution to the dialogue on race in modern America
