Martin, 2024-11-15 When hope is dimmest a ray of light breaks through Daisy Being abducted from Earth was terrifying When the fish headed aquatic aliens took me I knew I was in trouble Thankfully I was raised to be a fighter I've struggled against my captors at every turn but how many times can a girl get beat down before coming to realize you can't win It's wearing me down and I'm finally coming to realise there's no Prince Charming coming to rescue me I can't give up though not yet In a desperate attempt I join up with another girl from Earth and this time I'm either getting free or else There is no other option I can't live like this Then the floor shakes and winged demons from hell invade At least they're fighting the aquatics but is this a rescue or am I trading one master for another In this battle it's not just my life at stake this time my heart is on the line too Darnok Another mission one more battle Maybe this will be my last maybe not I can't bring myself to care anymore Being bigger than all the other warriors my entire life has been one lone string of abuse The other males pick fights with me to prove how tough they are and the Queens abuse me because I'm so big I always stand out All they see is the giant none of them see the person I am None of them see my dreams or my desire to be accepted How I want someone to love me for me Even my one friend barely sees because in this world I have to hide that part of me away There is no compassion in my world There is nothing to live for except to fight Go to the next battle and see if this time it's my last It doesn't matter there is no other end for me Sooner or later it will happen and I've accepted it At least then my suffering will end Until this mission Until I meet the human female Daisy Then everything changes I'll fight all of them to save her to make her mine She is the light in my universe and I'm not going to let it fade **Alien Protector** C.D. Psience Fiction Damien Broderick,2018-05-12 Science fiction has often been considered the literature of futuristic technology fantastic warfare among the stars or ruinous apocalypses on Earth The last century however saw through John W Campbell the introduction of psience fiction which explores such themes of mental powers as telepathy precognition of the future teleportation etc and symbolic machines that react to such forces The author surveys this long ignored literary shift through a series of influential novels and short stories published between the 1930s and the present This discussion is framed by the sudden surge of interest in parapsychology and its absorption not only into the SF genre but also into the real world through military experiments such as the Star Gate Program
