Perform source-level debugging on Adobe AIR enabled devices that are connected with a USB cable, running content directly on the device.

Simplify the creation of immersive experiences that present consistently across desktops, smartphones, tablets, and televisions with Adobe Flash Professional CS5.5 software. Target the latest mobile platforms including Android™ and iOS. Efficiently create content that targets multiple devices, copy and paste layers, and easily adapt artwork for various sizes. Use more than 20 new code snippets, including ones optimized for mobile and application development.

Digital content is no longer limited to the web browser on desktop computers. Today's consumers access the web practically anywhere on smartphones, tablets, and even in their living room on internet-enabled televisions. In an effort to reach targeted audiences across all of these kinds of devices, you are likely faced with a variety of design and development challenges that include:

- Creating content that will display consistently across a range of devices that have different screen sizes and resolutions
- Monetizing content by publishing it to the largest possible audience—across browsers on the desktop or as standalone applications that run on Windows, Mac OS, Android, and iOS
- Innovating and expanding content beyond the desktop to devices like gaming platforms and new internet-capable televisions
- Keeping up to date with the constant stream of new devices, and testing and optimizing your content to deliver great user experiences on these lower-powered devices

Flash Professional, the industry-leading application for producing immersive interactive content, helps you meet these challenges with a powerful creative toolset, an efficient development environment, and support for the latest platforms and devices.

Visually inspect ActionScript® code with the new profiler in the Code Snippets panel. Use new code snippets that enable your project to support mobile features, including accelerometer and gesture-based input.
