Adolescent Assessment Identifying Developmental Psychological And Behavioral Issues:

Behavioral, Social, and Emotional Assessment of Children and Adolescents Kenneth Merrell W, 2013-07-04 This book provides a comprehensive foundation for conducting clinical assessments of child and adolescent social emotional behavior in a practical scientific and culturally appropriate manner. It is aimed at graduate students, practitioners, and researchers in the fields of school psychology, child clinical psychology, and special education, but will also be of interest to those in related disciplines such as counseling psychology, child psychiatry, and social work.

Section I: Foundations and Methods of Assessment covers basic professional and ethical issues, classification and diagnostic problems, and comprehensive introductions to six primary assessment methods: behavioral observation, behavior rating scales, clinical interviewing, sociometric techniques, self-report instruments, and projective/expressive techniques.

Section II: Assessment of Specific Problems, Competencies, and Populations includes six chapters for assessing specific socio-emotional behavior domains: externalizing problems, internalizing problems, other problems, social skills, and peer relations in young children and diverse cultural groups. Key features include new material providing expanded coverage of ethnic, cultural, and linguistic diversity within socio-emotional assessment; new material on conducting assessments within the context of ecological theory and public health models; increased information on assessing children with Asperger's disorder or high-functioning Autism; and discussions of several new assessment tools and systems.

Evidence-Based Focus: Maintains a focus on empirically validated methods that research has shown to have adequate validity and reliability.

Problem Solving Focus: Throughout the book, assessment is linked to decision making within a problem-solving framework.

Functional Focus: Maintains a focus on making assessments functional within specific contexts and environments.

Behavioral, Social, and Emotional Assessment of Children and Adolescents Kenneth W. Merrell, 2003. Behavioral Social and Emotional Assessment of Children and Adolescents Second Edition was written to provide a comprehensive foundation for conducting clinical assessment of child and adolescent social emotional behavior in a practical scientific and culturally appropriate manner. It is divided into two major sections. Part I includes eight chapters that provide a general foundation for assessment practice. These chapters include coverage of basic professional and ethical issues, classification and diagnostic problems, and six primary assessment methods which are presented in detail. Part II includes six chapters on applications for assessing specific social emotional behavior domains including internalizing and externalizing problems, social skills, and peer relations in young children and diverse cultural groups. Together, these two sections provide a framework for a model of assessment that is practical, flexible, sensitive to specific needs, and empirically sound.

Changes in the second edition of this book include increased coverage of the practice of functional behavior assessment, updated test reviews, reviews of new assessment instruments, updated information on legal and ethical issues, updated information on assessment and cultural diversity, and a handy appendix with contact information for all publishers of instruments discussed in the book, including Web site addresses. To the greatest

extent possible this book weaves together the most recent research evidence and common application issues It is specifically relevant to practitioners and researchers in the fields of school psychology and child clinical psychology but will also be of interest to those in related disciplines such as counseling social work child psychiatry and special education **Behavioral, Social, and Emotional Assessment of Children and Adolescents** Sara Whitcomb,2017-08-30 Generally recognized as the standard work in its field Behavioral Social and Emotional Assessment of Children and Adolescents is a comprehensive guide for conducting conceptually sound culturally responsive and ecologically oriented assessments of students social and emotional behavior Written for graduate students practitioners and researchers in the fields of school psychology child clinical psychology and special education it will also be of interest to those in related disciplines Building on the previous editions this fifth edition includes updated references to DSM 5 and federal standards as well as an integrated approach to culturally competent assessment throughout the text In Part I Foundations and Methods of Assessment the author provides a general foundation for assessment practice and outlines basic professional and ethical issues cultural considerations and classification and diagnostic problems Part II Assessment of Specific Problems Competencies and Populations includes material on assessing specific social emotional behavior domains including externalizing problems internalizing problems social skills and social emotional strengths and the unique needs of young children A chapter on school wide screening methods was also added with this edition By weaving together the most recent research evidence and common application issues in a scholarly yet practical matter Behavioral Social and Emotional Assessment of Children and Adolescents continues to be the pre eminent foundation for assessment courses **Behavioral, Social, and Emotional Assessment of Children and Adolescents** Sara A.
