Gaitis, Carl F. Ingwolson, Jr., Vivien B. Shelanski, 2014-01-01 This third edition of The College of Commercial Arbitrators Guide to Best Practices in Commercial Arbitration has been substantially expanded not only to ensure that it is up to date but also to incorporate several new chapters on diverse subjects including intratribunal relations arbitrators fees eDiscovery and hybrid arbitration processes Summary of New Material Twice as long as the second edition Substantial revision and expansion of existing chapters Four new chapters Arbitrators Fees Expenses eDiscovery Intratribunal Relations Hybrid Arbitration Proceedings Updated to take into account evolving case law and to address newly emerging issues relating to the management of commercial arbitrations Comparative tables regarding certain aspects of in major international rules and international arbitration institution policies Revised to take into account The new 2013 CPR Administered Arbitration Rules The 2013 revisions to the AAA Commercial Rules Various protocols and guidelines relating to domestic commercial arbitration The 2011 revisions to the JAMS International Rules The 2012 revisions to the ICDR Articles The 2010 revisions to the UNCITRAL Rules The 2013 IBA Guidelines on Party Representation in International Arbitration The 2010 revisions to the IBA Rules on the Taking of Evidence in International Arbitration Various protocols and guidelines relating to domestic commercial arbitration The aim of the Guide is to identify best practices that arbitrators can employ to provide users of arbitration with the highest possible standards of economy and fairness in the disposition of business disputes This third edition of the Guide refines the guidance contained in the first and second editions to take into account developing case law revised institutional rules advancements in arbitration techniques and thinking and also addresses newly evolving issues such as electronic discovery There are significant differences in the ways in which arbitrations are conducted in different substantive fields of commerce and among different arbitrators in the same field Techniques that are appropriate and useful in one case may be quite unsuited to another For this reason it is not possible to prescribe a single set of best practices that commercial arbitrators should invariably follow in every case Rather this Guide attempts to identify the principal issues that typically arise in each successive stage of an arbitration and to explain the pros and cons of various preferred ways of handling each issue From this perspective the best practice for an arbitrator is to carefully consider the merits of alternative techniques available for dealing with a particular issue and to then select the technique best suited to the situation In addition the Guide attempts to identify the full array of practices available for use in complex arbitrations which can be adapted and streamlined for simpler cases Formed in 2001 the College of Commercial Arbitrators is a non profit organization composed of prominent experienced commercial arbitrators who believe that a national association of

Mediation Law Penny Brooker, 2013-10-23 In England mediation became a key part of the civil justice reform agenda after the Woolf Reforms of 1996 as disputants were deflected from litigation towards settlement outside the court system The Civil Procedure Rules CPR give courts the power to encourage mediation through judicial case management or use stronger measures by using costs to penalise parties who act unreasonably by refusing to use ADR or mediation One of the effects of this institutionalisation is an emerging case law that defines how mediation is practiced as it merges with the litigation process When mediation first began to be used in England the parties either agreed to mediate by a contract before a dispute happened or decided to attempt the process as a way of resolving disagreements Inevitably some disputants either refused to abide by their contractual obligations or would not follow through with the settlement agreements reached through the process This brought the authority of the law into a new area and the juridification process began This book explores how mediation law shapes the practice of mediation in the English jurisdiction It provides a comprehensive examination of the legal framework for mediation and explores the jurisprudence in order to analyse the extent that institutionalisation by the state and courts has led to the monopolisation by lawyers and a further juridification process results The book includes a

comparative legal methodology on the framework underpinning mediation practise in other common law jurisdictions including the United States Australia and Hong Kong in order to explicate shared or distinctive approaches to mediation The book will be of great interest to academics and students of legal theory and dispute resolution
