use it to better serve the needs of adult Christian readers Covering the three major branches of Christianity Roman Catholic Protestant and Orthodox the author organizes more than 600 titles into subject categories ranging from biography the arts and education to theology devotion and spiritual warfare Award winning classics are noted Introductory narrative frames the literature and helps librarians better understand Christian literature and learn how to establish selection criteria for building a Christian nonfiction collection Where Dragons Dance Kory Varlen,2023-10 Astrologers use lunar eclipses for timing and prediction Our birth charts reveal we belong to a heavenly family a family of dragons a family of galvanizing lunar eclipse patterns many of which are ancient and have been returning for centuries Get ready to meet your dragon family and discover life patterns unknowable by any conventional means of astrological analysis The ancient Chinese believed that lunar eclipse occurred when a dragon ate the moon Our birth charts reveal we belong to a heavenly family a family of dragons or galvanizing lunar eclipse patterns many of which are ancient and have been returning for centuries to check up on us their earthly kin Get ready to meet your dragon family and discover life patterns that have been dancing you through elaborate cosmic steps heretofore unknowable by any conventional means of astrological analysis Who wouldn't want to dance with dragons Nothing has captured their essence more than this book Who are these dragons Which Dragon family do you belong to Which Dragon owns the Astrological DNA of your soul How are Dragons influencing your life If you're looking for a precision instrument that is useful reliable and will function 100 percent of the time the forty seven families of lunar eclipses outlined in this book have quite the stories to tell Some are ancient some are new and some have yet to be born But they each have the power to illuminate your sphere of influence We all want to fulfill the highest truest expression of ourselves as human beings and a knowledge of how these Lunar Saros Series eclipses work shines a special quality of light upon our personality and our pathway through the world You will see how the eclipses have impacted lives and brought fame fortune and sometimes despair The author's captivating humor takes the technical astrological data and makes it interesting to even those who are not astrology buffs Every Astrologer needs this book It is as essential as the Ephemerides It will make your practice come alive in ways you have never experienced *Perspectives on Synchronicity, Inspiration, and the Soul* Rico Sneller,2020-07-07 This book explores the notion of the human psyche soul and its continuing usefulness in the background of the ongoing and always accelerating techno scientific revolution The main argument here follows the assumption that this revolution while not necessarily being a threat to humankind is often blind or ignorant as to its subject the human being In the first chapters the reader is invited to reflect on the notion of thinking as a phenomenon of consciousness that transcends merely having thoughts Relating thinking to consciousness requires reconsidering the phenomena of inspiration and ecstasy Provided that such a thing as inspiration exists it makes sense to revise the solipsist or substantialist account often given of the human mind The book defines inspiration as a clairvoyance of one's psyche and ecstasy as the experience of this clairvoyance Next a case is made for synchronicity experiences as a key to a better understanding of the human psyche While

being enigmatic all throughout synchronicity experiences both on the individual and on the collective level help overcome both subject object and body mind dualisms It is not likely though that the solution they could offer will be readily accepted by what is called science today since it challenges one of the latter s basic premises causality As a more concrete example of a condensed synchronicity experience the author dwells on physiognomy In the final chapter death and suffering are discussed as extreme and therefore relevant experiences of consciousness The book interprets death in terms of enhanced subliminality and suffering as unconscious resistance against maturing Generally this book explores a psycho philosophical tradition rooted in Romantic thinking from Schelling and Schopenhauer until Klages and Jung which has hitherto been unjustly neglected if not repressed by mainstream materialism and positivism It makes a strong case for an intellectual account of the soul
