

ULTIMATE BODY FITNESS GUIDE

WHY DO YOU NEED TO STAY ACTIVE?

We all know that we should exercise. Regular physical activity is an integral part of your well-being, no matter if your goal is a slimmer, healthier, and stronger body or simply a more fulfilling life.

Exercise strengthens your muscles and bones, and improves joint flexibility, allowing you to move easily without pain and tension. It boosts your happiness through the release of endorphins — the happiness hormones that improve your mood and stabilize mental health.

Your body needs to exercise the same as eating food, because activity nourishes your muscles, enhancing oxygen and nutrient absorption, and improving your cardiovascular system. You boost your performance, your energy, and overall life satisfaction.

When we talk about physical activity, it doesn't mean that you need to conquer the gym every day. Activity is everything, starting from morning stretching, walking after lunch and dinner, cleaning the house, and, of course, traditional exercise. You don't need to push your body beyond its limits and push yourself to do exercises you hate — this approach won't work. Later in this guide, we will guide you through the steps on how to increase your activity and make it a lasting habit.

Doesn't that sound inspiring? Let's embark on a fitness journey.
