Body Soul And Life Everlasting Biblical Anthropology And The Monism Dualism Debate:

Body, Soul, and Life Everlasting John W. Cooper, 2000 This widely acclaimed study of biblical anthropology is available once more along with a substantial new preface by the author Fully engaged with theological philosophical and scientific discussions on the nature of human persons and their destiny beyond the grave John Cooper's defense of holistic dualism remains the most satisfying and biblical response to come from the monism dualism debate First published in 1989 *Body Soul and Life Everlasting* is required reading for Christian philosophers theologians psychologists and students interested in the mind body question *The Ashgate Research Companion to Theological Anthropology* Joshua R. Farris, Charles Taliaferro, 2016-03-09 In recent scholarship there is an emerging interest in the integration of philosophy and theology Philosophers and theologians address the relationship between body and soul and its implications for theological anthropology In so doing philosopher theologians interact with cognitive science biological evolution psychology and sociology Reflecting these exciting new developments *The Ashgate Research Companion to Theological Anthropology* is a resource for philosophers and theologians students and scholars interested in the constructive critical exploration of a theology of human persons Throughout this collection of newly authored contributions key themes are addressed human agency and grace the soul sin and salvation Christology glory feminism the theology of human nature and other major themes in theological anthropology in historic as well as contemporary contexts *Neuroscience and the Soul* Thomas M. Crisp, Steven Porter, Gregg A. Ten Elshof, 2016-11-20 An interdisciplinary look at arguments both for and against traditional belief in the soul It is a widely held belief that human beings are both body and soul that our immaterial soul is distinct from our material body But that traditional idea has been seriously questioned by much recent research in the brain sciences In *Neuroscience and the Soul* fourteen distinguished scholars grapple with current debates about the existence and nature of the soul Featuring a dialogical format the book presents state of the art work by leading philosophers and theologians some arguing for the existence of the soul others arguing against it and then puts those scholars into conversation with critics of their views Bringing philosophy theology and science together in this way brings to light new perspectives and advances the ongoing debate over body and soul CONTRIBUTORS Robin Collins John W Cooper Kevin Corcoran Stewart Goetz William Hasker Veli Matti K. Riekkari Eric LaRock Brian Lugioyo J. P. Moreland Timothy O'Connor Jason D Runyan Kevin Sharpe Daniel Speak Richard Swinburne *Beyond Determinism and Reductionism* Mark L. Y. Chan, Roland Chia, 2003 This new volume in ATF Press's Science and Theology series assesses the impact of genetic science and stem cell research on the Christian understanding of the human person *Bodies and Souls, or Spirited Bodies?* Nancey Murphy, 2006-01-12 Are humans composed of a body and a nonmaterial mind or soul or are we purely physical beings Opinion is sharply divided over this issue In this clear and concise book Nancey Murphy argues for a physicalist account but one that does not diminish traditional views of humans as rational moral and capable of relating to God This position is motivated not only by

developments in science and philosophy but also by biblical studies and Christian theology The reader is invited to appreciate the ways in which organisms are more than the sum of their parts That higher human capacities such as morality free will and religious awareness emerge from our neurobiological complexity and develop through our relation to others to our cultural inheritance and most importantly to God Murphy addresses the questions of human uniqueness religious experience and personal identity before and after bodily resurrection *Neuroscience and Christian Formation* Mark A. Maddix, Dean G. Blevins, 2016-10-01 Why a text on neuroscience and Christian formation Simply put we need one that represents the range of possible intersections for today and into the future In recent years neuroscience s various fields of study have influenced our understanding of the person memory learning development communal interaction and the practice of education The book serves as an introductory textbook for Christian education formation professors to use in Christian education or Christian formation courses at the College or Seminary level The book is designed to provide an overview of how current research in neuroscience is impacting how we view Christian education and formation with particular attention given to faith formation teaching development and worship The first four chapters discuss how neuroscience broadly influences Christian education and formation Chapters five through eight explore how neuroscience informs specific formational practices from personal meditation to intercultural encounter to congregational formation and worship The last four chapters explore various aspects of neuroscience along developmental lines The book also moves from conceptual overviews to more empirical studies late in the text Each chapter of this book can also be read and discussed individually Each author has provided both discussion topics suggestions for future reading within neuroscience and discussion questions at the end of the chapter **From Cells to Souls, and Beyond** Malcolm A. Jeeves, 2004 This is a print on demand book and is therefore non returnable
