Balancing The Big Stuff Finding Happiness In Work Family And Life:

Balancing the Big Stuff Miriam Liss, Holly H. Schiffrin, 2014 This book considers the obstacles that prevent families from achieving true work family balance Clarifying what it means to be happy and what it means to have it all Miriam Liss and Holly Schiffrin illustrate how to achieve true contentment outlining ways men and women can get more enjoyment and happiness both at home and the office

Balancing the Big Stuff Miriam Liss, Holly H. Schiffrin, 2014-08-07 While the current conversation about work family balance and having it all tends to focus on women both men and women are harmed when conditions make it impossible to balance meaningful work with family life Yet both will benefit from re evaluating what it means to have it all and fighting for changes in their relationships and society to make greater equality possible Here Miriam Liss and Holly Hollomon Schiffrin discuss the ways in which we all define having it all and how we can obtain it for ourselves through a better evaluation of what we want from ourselves our families our jobs and each other Determining a 50 50 division of labor around the house may not be the thing that works for everyone Working from home or not at all may not be the thing to bring us satisfaction but learning what studies show and how to feel balanced and make those decisions to bring balance is crucial The authors argue that people can find balance in their roles by doing things in moderation Although being engaged in both parenting and work is good for well being people can avoid the pitfalls of over parenting and over working They show that balance can come from a meaningful consideration of what happiness and contentedness mean to us as individuals and how best to achieve our goals within the limitations of our current circumstances They illustrate that balance is not simply an individual problem Social issues such as the lack of parental leave flexible work schedules and affordable high quality child care make balance difficult With attention now on the issue they argue that it s time men and women advocate for better services and better opportunities to achieve balance happiness and success in all their roles

Educating through Popular Culture Edward Janak, Ludovic A. Sourdout, 2017-03-01 This edited volume serves as a place for teachers and scholars to begin seeking ways in which popular culture has been effectively tapped for research and teaching purposes around the country. The contents of the book came together in a way that allowed for a detailed examination of teaching with popular culture on many levels. The first part allows teachers in PreK-12 schools the opportunity to share their successful practices. The second part affords the same opportunity to teachers in community colleges and university settings. The third part shows the impact of US popular culture in classrooms around the world. The fourth part closes the loop to some extent showing how universities can prepare teachers to use popular culture with their future PreK-12 students. The final part of the book allows researchers to discuss the impact popular culture plays in their work. It also seeks to address a shortcoming in the field: while there are outlets to publish studies of popular culture and outlets to publish pedagogical/practitioner pieces, there is no outlet to publish practitioner pieces on studying popular culture in spite of the increased popularity and legitimacy of the field.

Theorizing Motherhood and Emerging Adulthood Maya Bhavé, Talia Esnard, Kae Solomon, 2025-05-14 While motherhood as an area of scholarship has been significantly advanced with extensive global theorizations/examinations of the thinking and experiences around mothering/emerging adults, there is still a need for deeper interrogation. This edited volume addresses this gap with a rich array of empirical, reflective, and creative pieces that speak to the contextual, emotive, or affective, discursive, and performative aspects of mothering. The volume is framed around the theoretical concepts of normative motherhood, maternal regret, silence, and maternal social transitions. The contributing authors bring to light new and innovative analyses on subjects including but not limited to eco-disconnect, non-proximate, and mothering neurodiversity, abuse, mental health issues, and mothering/tiger mothering and racialized understandings of mothering/emerging adults. The findings revealed within this volume broaden our understanding of the often-unexamined latter period of the motherhood arc.

Intensive Mothering: The Cultural Contradictions of Modern Motherhood Linda Rose Ennis, 2014-12-01 To celebrate the twentieth anniversary of Sharon Hays' landmark book *The Cultural Contradictions of Motherhood*, this collection will revisit Hays' concept of intensive mothering as a continuing yet controversial representation of modern motherhood. In Hays' original work, she spoke of intensive mothering as primarily being conducted by mothers centered on children's needs with methods informed by experts, which are labour-intensive and costly simply because children are entitled to this maternal investment. While respecting the important need for connection between mother and baby that is prevalent in the teachings of Attachment Theory, this collection raises into question whether an over-investment of mothers in their children's lives is as effective a mode of parenting as being conveyed by representations of modern motherhood. In a world where independence is encouraged, why are we still engaging in intensive motherhood?

A New Psychology of Women Hilary M. Lips, 2016-05-04 Rich, original, and transformative, the latest edition of *A New Psychology of Women* examines how gender-related expectations interact with other cultural assumptions and

stereotypes and with social and economic conditions to affect women's experiences and behavior. Absorbing narratives centered on essential topics in psychology and global research engage readers to grasp cutting edge insights into the psychological diversity of women. Aware that our own cultural experience colors and limits what we think we know about people, veteran educator and scholar Hilary Lips imbues her discussions with international examples and perspectives to provide an inclusive approach to the psychology of women. A wide range of new and extensively updated topics optimize readers' knowledge of how disparate perspectives from cultures throughout the world shape women's behavior and attitudes toward health care, violence against women, poverty, labor force participation, occupational segregation, unpaid work, stereotyping and discrimination, expectations about power within marriage, female genital mutilation, theories of gender development, women's attitudes toward their bodies, use of social media, media portrayals of girls and women, women in political leadership roles. Among thoroughly updated topics particular to US culture are same sex marriage, Latina women's issues, the portrayal of women of different ethnic and cultural groups on television, and breast cancer survival rates of African American and European American women. Boxed items containing learning activities, profiles of women who helped shape psychology, and suggestions for making social changes appear throughout the text. Each chapter concludes with discussion questions, key terms, suggestions for additional reading, and Web resources.

Work-Life Tango Kristel Bauer, 2024-11-19

The familiar concept of work life balance endures, but does anyone actually boast of having a healthy ratio of work and personal time? Very few do because our model for work life leads to burn out; it asks individuals to chase a dream where work and life are both equal and distinct, where the demands of one do not contradict the demands of another. Simply giving 100% to the twin pillars of your life will not give you the work life balance you crave. The good news is there's a much more intelligent, holistic, and effective way to live your life. Life has never fit into tidy little boxes. Family and social needs don't stop between 9:00 a.m. and 5:00 p.m., and work pressures bleed into the hours between 5:01 p.m. and 8:59 a.m. all the time. And since the pandemic, the lines have become even more blurred, with remote workers bearing the brunt of the impact. It's time to embrace new wellness strategies. This book will show how taking a holistic and integrative approach to the complex demands of life and work will transform your happiness and productivity. The book will contain three parts. Part I will focus on strategies to thrive as an individual, specifically maintaining a healthy mind and body by prioritizing oneself. You'll learn how to integrate healthy lifestyle habits into and throughout your workday so that taking care of yourself won't compete with productivity but will support it. Part II will focus on thriving at work. You'll learn about checkpoints and how to use these moments to wake up and realign your well-being with your personal mission. You'll learn how to create healthy boundaries, work through the common challenges that remote workers face, and provide approachable solutions that you can immediately start integrating into your work life. Team leaders will gain key insights for managing remote and flexible teams so that they can create the conditions for success. Part III is about thriving in relationships. While community and connection are vital to

well being many workers struggle to form and maintain these bonds This book will explain why connection is vital and show how to encourage it By identifying your personal mission and integrating the wellness strategies provided in TheWork Life Tango you ll be able to show up 100% in all aspects of life in your career for your family and friends and for yourself
