book reveal the passion dedication and sense of adventure shared by those who study these majestic birds and strive for their conservation Featuring stunning color photographs of the eagles information on raptor conservation a global list of all eagle species with ranges and conservation status and a color map of the sites visited in the book The Eagle Watchers will appeal to birders conservationists and adventure travelers alike To further support the conservation programs described in this book all royalties are being donated to two leading nonprofit organizations for raptor conservation training and fieldwork Hawk Mountain Sanctuary Intern Program and the National Birds of Prey Trust
