Legal Authority for Course of Study

§16-35-4 and §16-6B-2(f). The state board of education, on the recommendation of the state superintendent of education, shall prescribe the minimum contents of courses of study for all public, elementary and high schools in the state...

Working Definition for Course of Study

A course of study is a curriculum document containing academic content standards that specify what students should know and be able to do in a particular subject area by the end of each grade level course.

Pacing Guide

A pacing guide is a schedule of when required content standards will be taught over the course of the school year. Pacing guides are developed to help teachers cover all course of study standards in a timely manner before the end of the academic year and/or high-state testing.

Components

The Baldwin County Pacing Guide includes these components: **Standards, Resources/Materials, and Vocabulary.**

The **Standards** are taken directly from the Alabama Course of Study for each grade level and content area. The content standards describe what a student should know and be able to do by the end of a grade level course; the standards address what is fundamental to the content.

The resources listed under **Resources/Materials** are a starting point for instruction; not a mandate limiting instructional materials. The Resources/Materials section reflects where lessons for particular standards are located in the textbook as well as other supplemental materials. The change from textbook-driven to standards-based instruction is an important shift in the teaching paradigm. Professional teacher judgment is a vital component for building resources beyond the textbook to meet the needs of all students.

The **Vocabulary** component may include content as well as standards/test vocabulary. Vocabulary development is critical to academic success. It is important that students are exposed daily to new content vocabulary and standards-based vocabulary.
