

Bangor Dyslexia Test

Professor T.R.Miles

It is very important that you read the accompanying Manual before you attempt to carry out this test.

Noting responses

Be accurate and comprehensive in noting the subject's responses to each item. You will need to have a record of exactly what happened when you come to score his/her performance. For ease of administration you should sit opposite the subject.

Use a tick if the subject gives the correct response instantaneously, but record all delays and hesitations; always indicate if the subject asks for the question to be repeated, echoes the question or tries to reorientate himself/herself by repeating what went before. Do not put a cross if the answer is wrong, but record as accurately as possible what the subject said. Where appropriate, record the supplementary questions which you ask.

Use the following abbreviations:

✓ = correct response

HES = subject hesitates

AQR = subject asks for question to be repeated

EQ = subject echoes question

EP = epanalepsis (in the case of tables), ie subject goes back a few steps so as to make a fresh start

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
