Banjo Workshop Mike Bailey, 2020-07-28 Banjo Workshop was written with four important areas of the 5 string banjo technical and artistic development in mind picking technique personal style creativity and awareness of the instrument s key and tuning potential Picking technique Studies in Section 1 will equip you to dissolve the inhibiting notion that some songs are unplayable on the 5 string banjo Any song is playable if the necessary technique has been learned and developed to accommodate it Personal style In Section 2 you will first explore several popular 3 finger sub styles seeing how each evolved and how they are all often intermixed within a given performer s own personal style Through subsequent examples you will be made aware of style potential and the artistic necessity of developing your own personal style Creativity Through style development and improvisational skills taught in Section 3 you will begin to think and perform less like a mechanical follower and more like an artistic ground breaker You will learn to modify arrangements further you will learn to create your own arrangements

Exploration of Non G Keys and Tunings In Section 4 you will find that playing in keys and tunings other than G are no less fun and no more difficult than playing the familiar G bluegrass tuning Six non G tunings will be explored involving ten solos including major minor and modal tunings The overall effort is to make you aware that you don t have to be a technical whiz nor a speed king in order to be a musical artist If you can add something new and different something enjoyable to listen to you are an artist even if you are not yet an advanced level player
