

Artificial Nutrition and Hydration (ANH)

- Is a medical treatment that allows a person to receive nutrition (food) and hydration (fluids) when they are no longer able to take them by mouth.
- Given to a person who cannot eat or drink enough to sustain life or health.
- Doctors can provide nutrition and hydration through intravenous (IV) administration or by putting a tube in the stomach.
- Requires technical skill and has many serious risks. Professional skill and training are necessary to insert the tube, to make decisions about how much and what type of nutrition to give, and to monitor for side effects.
- Not offer the comforts that come from the taste and texture of food and liquids

Artificial Nutrition And Hydration Artificial Nutrition And Hydration:

Artificial Nutrition and Hydration and the Permanently Unconscious Patient Ronald P. Hamel, James J. Walter, 2007-09-13 During the past few decades high profile cases like that of Terry Schiavo have fueled the public debate over forgoing or withdrawing artificial nutrition and hydration from patients in a persistent vegetative state PVS These cases whether involving adults or young children have forced many to begin thinking in a measured and careful way about the moral legitimacy of allowing patients to die Can families forgo or withdraw artificial hydration and nutrition from their loved ones when no hope of recovery seems possible Many Catholics know that Catholic moral theology has formulated a well developed and well reasoned position on this and other end of life issues one that distinguishes between ordinary and extraordinary treatment But recent events have caused uncertainty and confusion and even acrimony among the faithful In his 2004 allocution Pope John Paul II proposed that artificial nutrition and hydration is a form of basic care thus suggesting that the provision of such care to patients neurologically incapable of feeding themselves should be considered a moral obligation The pope's address which seemed to have offered a new development to decades of Catholic health care ethics sparked a contentious debate among the faithful over how best to treat permanently unconscious patients within the tenets of Catholic morality In this comprehensive and balanced volume Ronald Hamel and James Walter present twenty one essays and articles contributed by physicians clergy theologians and ethicists to reflect the spectrum of perspectives on the issues that define the Catholic debate Organized into six parts each with its own introduction the essays offer clinical information on PVS and feeding tubes discussions on the Catholic moral tradition and how it might be changing ecclesiastical and pastoral statements on forgoing or withdrawing nutrition and hydration theological and ethical analyses on the issue commentary on Pope John Paul II's 2004 allocution and the theological commentary court decisions and public policy resulting from the Clarence Herbert and Claire Conroy legal cases A valuable resource for students and scholars this teachable volume invites theological dialogue and ethical discussion on one of the most contested issues in the church today *Artificial Nutrition and Hydration* Christopher Tollefsen, 2007-12-08 Pope John Paul II surprised much of the medical world in 2004 with his strongly worded statement insisting that patients in a persistent vegetative state should be provided with nutrition and hydration This collection of essays featuring some of the most prominent Catholic bioethicists addresses the Pope's statements the moral issues surrounding artificial feeding and hydration the refusal of treatment and the ethics of care for those at the end of life Reading Packet on Withholding Or Withdrawing Artificial Nutrition and Hydration Reinhard Priester, 1990 **Nutrition Therapy** Bridget M. Klawitter, 2007 This practical text presents a wealth of fresh ideas and techniques for strengthening counseling skills to face real world issues in nutrition therapy It offers students and practitioners advice on ways to increase referrals decrease no shows and overcome common barriers to effective counseling The Third Edition also explores strategies for counseling patients with AIDS diabetes and other chronic diseases for group

therapy for teaching developmental skills and for end of life counseling This edition has a new reader friendly design and layout New learning activities including case studies and critical thinking exercises encourage students to apply what they have learned to common situations in clinical practice The Moral Challenge of Alzheimer Disease Stephen G.

Post,2002-11-04 Society today writes Stephen Post is hypercognitive it places inordinate emphasis on people s powers of rational thinking and memory Thus Alzheimer disease and other dementias which over an extended period incrementally rob patients of exactly those functions raise many dilemmas How are we to view and value persons deprived of what some consider the most important human capacities In the second edition of The Moral Challenge of Alzheimer Disease Post updates his highly praised account of the major ethical issues relating to dementia care With chapters organized to follow the progression from mild to severe and then terminal stages of dementia Post discusses topics including the experience of dementia family caregiving genetic testing for Alzheimer disease quality of life and assisted suicide and euthanasia New to this edition are sections dealing with end of life issues especially artificial nutrition and hydration the emerging cognitive enhancing drugs distributive justice spirituality and hospice as well as a critique of rationalistic definitions of personhood The last chapter is a new summary of practical solutions useful to family members and professionals Decision Making

Regarding Artificial Nutrition & Hydration at End of Life Pamela Sue Conn,2007 **Contemporary Issues in Bioethics**

James J. Walter,Thomas A. Shannon,2005-12-08 Contemporary Issues in Bioethics A Catholic Perspective applies the best of the Roman Catholic theological and ethical tradition to some of the most controversial and complex bioethical topics that confront contemporary society Walter and Shannon offer a fresh analysis of the Catholic tradition and show how a distinctively Catholic perspective can inform public discussion of these issues In an age where religion is often excluded from ethical discussions on bioethical issues this book shows that the Catholic tradition has something very important to offer
