Balaclava 1854 The Charge Of The Light Brigade Campaign:

Balaclava 1854 John Sweetman, 2012-10-20 Balaclava 1854 examines in detail the crucial battle of Balaclava during The Crimean War The port of Balaclava was crucial in maintaining the supply lines for the Allied siege of Sevastapol The Russian attack in October 1854 therefore posed a major threat to the survival of the Allied cause This book includes the attack on the redoubts the action of the thin red line in which an assortment of about 700 British troops some invalids were abandoned by their Turkish allies the subsequent charge of the Heavy Brigade and the most famous part of the battle the infamous charge of the Light Brigade **Military's Strangest Campaigns & Characters** Tom Quinn, 2015-09-17 Military campaigns pivotal battles and extraordinary leaders have collectively shaped the course of history and in this fascinating book author Tom Quinn examines some of the most remarkable campaigns incidents and characters from the earliest recorded histories to the second Gulf war These strange but true stories include figures both famous and obscure from Wellington Churchill and Napoleon to maverick soldier Popski Peniakoff who commanded a company of British soldiers in North Africa during the Second World War Known as Popski's Private Army this motley bunch were highly unorthodox but very effective in raiding Axis supply columns and destroying Luftwaffe aircraft Then there's the unusual Russian warship Novgorod which was completely circular and the Victoria Cross winner who survived completely unscathed against all odds not to mention the old colonel who went into battle with his trousers down and the woman who fought as a man for nearly twenty years without being discovered Military's Strangest Campaigns Characters makes for bizarre yet absorbing reading highlighting the origins of strange regimental traditions heroic and ridiculous soldiering and the folly of commanding officers throughout the ages

War, Strategy and the Modern State, 1792-1914 Carl Cavanagh Hodge, 2016-11-25 This book is a comparative study of military operations conducted by modern states between the French Revolution and World War I It examines the complex relationship between political purpose and strategy on the one hand and the challenge of realizing strategic goals through military operations on the other It argues further that following the experience of the Napoleonic Wars military strength was awarded a primary status in determining the comparative modernity of all the Great Powers that military goals came progressively to distort a sober understanding of the national interest that a genuinely political and diplomatic understanding of national strategy was lost and that these developments collectively rendered the military and political catastrophe of 1914 not inevitable yet probable *The Victorian Army and the Staff College 1854-1914* Brian Bond, 2015-10-05 A pioneering work in British military history originally published in 1972 this book is both scholarly and entertaining Although the book concentrates on a single institution it illuminates a much wider area of social and intellectual change For the Army the importance of the change was enormous in 1854 there was neither a Staff College nor a General Staff and professional education and training were largely despised by the officers by 1914 the College could justly be described as a school of thought while the officers it had trained were coming to dominate the highest posts in Commands and on the General Staff
