Bananas Beaches And Bases Making Feminist Sense Of International Politics:

Bananas, Beaches and Bases Cynthia Enloe, 2014-05-16 In this brand new radical analysis of globalization Cynthia Enloe examines recent events Bangladeshi garment factory deaths domestic workers in the Persian Gulf Chinese global tourists and the UN gender politics of guns to reveal the crucial role of women in international politics today With all new and updated chapters Enloe describes how many women s seemingly personal strategies in their marriages in their housework in their coping with ideals of beauty are in reality the stuff of global politics Enloe offers a feminist gender analysis of the global politics of both masculinities and femininities dismantles an apparently overwhelming world system and reveals that system to be much more fragile and open to change than we think

Bananas, Beaches & Bases Cynthia H. Enloe, 1990 This radical new analysis of international politics reveals the crucial role of women in implementing governmental foreign policies be it Soviet Glasnost Britain s dealings in the EEC or the NATO alliance Cynthia Enloe pulls back the curtain on the familiar scenes governments restricting imported goods bankers negotiating foreign loans soldiers serving overseas and shows that the real landscape is less exclusively male *Bananas Beaches and Bases* shows how thousands of women tailor their marriages to fit the demands of state secrecy how foreign policy would grind to a halt without secretaries to handle money transfers or arms shipments and how women are working in hotels and factories around the world in order to service their governments debts Enloe also challenges common assumptions about what constitutes international politics She explains for example how turning tacos and sushi into bland fast foods affects relations between affluent and developing countries and why a multinational banana company needs the brothel outside its gates And she argues that shopping at Benneton wearing Levis working as a nanny or employing one or planning a vacation are all examples of foreign policy in action *Bananas Beaches and Bases* does not ignore our curiosity about arms dealers the President s men or official secrets But it shows why these conventional clues are not sufficient for understanding how the international political system works In exposing policymakers reliance on false notions of femininity and masculinity Enloe dismantles a seemingly overwhelming world system exposing it to be much more fragile and open to change than we are usually led to believe

War and Gender Joshua S. Goldstein, 2003-07-17 Gender roles are nowhere more prominent than in war Yet contentious debates and the scattering of scholarship across academic disciplines have obscured understanding of how gender affects war and vice versa In this authoritative and lively review of our state of knowledge Joshua Goldstein assesses the possible explanations for the near total exclusion of women from combat forces through history and across cultures Topics covered include the history of women who did fight and fought well the complex role of testosterone in men s social behaviours and the construction of masculinity and femininity in the shadow of war

Goldstein concludes that killing in war does not come naturally for either gender and that gender norms often shape men women and children to the needs of the war system Illustrated with photographs drawings and graphics and drawing from scholarship spanning six academic disciplines this book provides a unique study of a fascinating issue

The Restructuring of International Relations Theory Mark A. Neufeld, 1995-09-14 Arguing for a theory of international politics committed to human emancipation this text suggests that international relations theory must move in a nonpositivist direction It explores recent developments in the discipline including critical Gramscian postmodernist feminist and normative approaches

Feminism and International Relations J. Ann Tickner, Laura Sjoberg, 2013-07-03 Feminist International Relations scholarship in the United States recently celebrated its 20th anniversary Over those years feminist researchers have made substantial progress concerning the question of how gender matters in global politics global economics and global culture The progress has been noted both in the academic field of international relations and increasingly in the policy world Celebrating these achievements this book constructs conversations about the history present state of and future of feminist International Relations as a field across subfields of IR continents and generations of scholars Providing an overview and assessment of what it means to gender IR in the 21st century the volume has a unique format it features a series of intellectual conversations presenting cutting edge research in the field with provocative comments from senior scholars It examines issues including global governance the United Nations war peace security science beauty and human rights and addresses key questions including What does viewing the diverse problems of global politics through gendered lenses look like in the 21st Century How do feminisms accommodate differences in culture race and religion How do feminist theoretical and policy analyses fit together These conversations about feminist IR are accessible to non specialist audiences and will be of interest to students and scholars of Gender Studies Feminist Politics and International Relations

The Face of the Nation Elise Stephenson, 2024 The Face of the Nation studies women s leadership and gender relations across some of the worst performing and most male dominated spheres of state international affairs Exploring the stories from almost 80 global women leaders as well as institutional histories and policies across diplomacy defense national security policing and intelligence this book seeks to understand why women remain under represented on the global stage despite many changing social and policy norms Using Australia as a leading case study the book extends theories on gender and international institutions to understand the gendered racialized and heteronormative structures that continue to limit and impact on diverse women s leadership and participation internationally

Fairy Tales and International Relations Kathryn Starnes, 2016-12-08 This book offers a critical engagement with contemporary IR textbooks via a novel folklorist approach Two parts of the folklorist approach are developed addressing story structures via resemblances to two fairy tales and engaging with the role of authors via framing gestures The book not only looks at how the idea of social science may persist in textbooks as many assumptions about what it means to study IR but also at how these assumptions are written into the

defining stories textbooks tell and the possibilities for re negotiating these stories and the boundaries of the discipline This book will specifically engage with how the stories in textbooks constrain how it is possible to define IR through its re production as a social science discipline In the first part story structures are explored via Donkeyskin and Bluebeard stories which the book argues resemble some structures in textbooks that define how it is permissible to tell stories about IR In the second part the role of authors is explored via their framing gestures within a text drawing on a number of fairy tales By approaching the stories in textbooks alongside fairy tales Starnes reflects back onto IR the disciplining practices in the stories textbooks tell by rendering them unfamiliar Aiming to spark a critical conversation about the role of textbooks in defining the boundaries of what counts as IR and by extension the boundaries of the IR canon this book is of great interest to students and scholars of international relations

Feminist International Relations Christine Sylvester, 2002 Publisher Description

Fictional International Relations Sungju Park-Kang, 2014-06-05 This book proposes the idea of fictional International Relations IR and engages with feminist IR by contextualising the case of a woman spy in Korea in the Cold War Fictional imagination and feminist IR encourage one to go beyond conventional or standard ways of thinking it reshapes taken for granted interpretations and assumptions This takes the view that a dominant narrative of events might be reconstructed as a different kind of story once events are placed within a wider temporal approach The case of the woman Korean secret agent who reportedly bombed a South Korean plane Korean Airlines KAL Flight 858 under the instruction from the North Korean leadership to disrupt the Seoul Olympic Games is chosen to serve as an effective example of fictional IR and feminist IR scholarship which can be investigated through the research puzzles concerning gender pain and truth Fictional International Relations has three main objectives First it investigates the way in which fiction writing can become a method for dealing with data problems and contingency in IR Second the book examines how gender pain and truth operate or interact in the case of the Korean spy and how this observation can strengthen feminist IR in terms of intersectionality Finally the author goes on to explore why this case has been so difficult to study openly and thoroughly The aim of the book is not to refute the official findings the point is to unpack complex dynamics surrounding truth more specifically how the official account has been executed as the truth based on a feminist informed investigation This book will be of interest to students of IR theory critical security studies Cold War studies gender studies and Asian studies
