

An artistic photograph of two bright yellow birds, possibly weavers, perched on a dark, textured branch. They are actively building a nest using long, thin blades of green grass. The birds are positioned on the left side of the frame, with their bodies angled towards the right. The background is a solid, deep black, which makes the vibrant yellow of the birds and the green of the grass stand out. The lighting is soft, highlighting the texture of the birds' feathers and the sharp edges of the grass blades.

Computational Network Science Henry Hexmoor, 2014-09-23 The emerging field of network science represents a new style of research that can unify such traditionally diverse fields as sociology economics physics biology and computer science It is a powerful tool in analyzing both natural and man made systems using the relationships between players within these networks and between the networks themselves to gain insight into the nature of each field Until now studies in network science have been focused on particular relationships that require varied and sometimes incompatible datasets which has kept it from being a truly universal discipline *Computational Network Science* seeks to unify the methods used to analyze these diverse fields This book provides an introduction to the field of Network Science and provides the groundwork for a computational algorithm based approach to network and system analysis in a new and important way This new approach would remove the need for tedious human based analysis of different datasets and help researchers spend more time on the qualitative aspects of network science research Demystifies media hype regarding Network Science and serves as a fast paced introduction to state of the art concepts and systems related to network science Comprehensive coverage of Network Science algorithms methodologies and common problems Includes references to formative and updated developments in the field Coverage spans mathematical sociology economics political science and biological networks *Fostering Pedagogical*
