Avian Cognition Debra S. Herrmann,2016-01-27 Unlike any other book Avian Cognition thoroughly examines avian intelligence behavior and individuality Preferences choices motivation and habits of species flocks and individual birds are discussed and compared This book investigates who birds are and why they do what they do Daily seasonal and play activities creativity reasoning a *People and Products* Allan J. Kimmel,2015-03-05 By examining the interface between consumer behavior and new product development *People and Products* Consumer Behavior and Product Design demonstrates the ways in which consumers contribute to product design enhance product utility and determine brand identity With increased connectedness and advances in technology consumers and marketers are more closely connected than ever before Yet consumer behavior texts often overlook the application of the subject to product design testing and success This is the first book to explore this interface in detail exploring such issues as the attributes and qualities that consumers demand from products and services and social and cultural forces to be aware of design and form and how they facilitate product usage technological developments and the ways they have changed how consumers interact with products product disposal and sustainability emerging and future trends in consumer behavior and product development and design

This exciting volume is relevant to anyone interested in marketing consumer behavior product development technology engineering design and brand management

When Brains Meet Buildings Michael A. Arbib, 2021 Michael Arbib presents *When Brains Meet Buildings* as an invitation to the science behind architecture richly illustrated with buildings both famous and domestic As he converses with the reader he presents action oriented perception memory and imagination as well as atmosphere aesthetics and emotion as keys to analyzing the experience and design of architecture

Animal Architecture Paul Dobraszczyk, 2023-05-17 A provocative call for architects to remember and embrace the nonhuman lives that share our spaces A spider spinning its web in a dark corner Wasps building a nest under a roof There s hardly any part of the built environment that can t be inhabited by nonhumans and yet we are extremely selective about which animals we keep in or out This book imagines new ways of thinking about architecture and the more than human and asks how we might design with animals and the other lives that share our spaces in mind *Animal Architecture* is a provocative exploration of how to think about building in a world where humans and other animals are already entangled whether we acknowledge it or not

Bird Love Wenfei Tong, 2020-03-03 Exploring the sex life of birds and their wide range of fascinating mating and parenting habits this comprehensive study gives you a detailed insight into bird family life Discover the amazing array of courtship techniques employed by birds around the world such as ospreys bringing gifts of food in exchange for sex male skylarks performing aerial acrobatics to impress females or long tailed widowbirds showing off their tails to advertise the quality of their genes But it s not all about males seeking to impress or dominate females sex roles can be reversed and the book includes examples such as the black coucal whose females leave the males to perform all childcare duties The essential guide to bird family life *Bird Love* is richly illustrated with stunning colour photographs and regular Backyard Bird boxes in each chapter showcase familiar species from around the world There is also an index and further reading at the back of the book for those wanting to learn more about the many different species of birds in this book *Bird Love* covers a whole host of unique bird mating and parenting habits from practical to peculiar and is divided into sections on Ecology and Mating Systems Courtship Nests and Eggs Raising Chicks Sex Role Reversals Group Breeding Brood Parasitism From female hornbills who seal themselves in to their tree hollow nests relying on their mates to deliver food through a narrow slit to the eclectus parrots of Melanesia whose females fight each other to secure a home due to the limited availability of nesting spots and who can if succesful enjoy up to seven mates this book is filled with wild stories of the lengths birds will go to survive and thrive in the wild Varying levels of parental care are revealed from both parents having to provide constant care to allowing an insurance chick to die to ensure at least one survives And either sex can desert the nest in search of further matings to secure another clutch of chicks and the continuation of their family line Brood parasitism where birds such as cuckoos and cowbirds lay their eggs in other birds nests takes absentee parenting to the extreme and the book explores how these species have evolved to delegate all parental care Alongside it also shows how host species have cleverly developed a

wide range of tactics to defend their nests and their own families This complete guide is the ultimate study in the mating and parenting lives of birds of all kinds and is the perfect gift for either a seasoned ornithologist or an amateur bird fancier Stunning photographs accompany the deep scientific knowledge of author Wenfei Tong making this a must have for anyone interested in avian life
