No Globalization Without Representation Paul Adler, 2021-05-28 How consumer and environmental activists became significant players in US and world politics Amid the mass protests of the 1960s another less heralded political force arose public interest progressivism Led by activists like Ralph Nader organizations of lawyers and experts worked inside the system They confronted corporate power and helped win major consumer and environmental protections By the late 1970s some public interest groups moved beyond US borders to challenge multinational corporations This happened at the same time that neoliberalism a politics of empowerment for big business gained strength in the US and around the world No Globalization Without Representation is the story of how consumer and environmental activists became significant players in US and world politics at the twentieth century's close NGOs like Friends of the Earth and Public Citizen helped forge a progressive coalition that lobbied against the emerging neoliberal world order and in favor of what they called fair globalization From boycotting Nestl in the 1970s to lobbying against NAFTA to the Battle of Seattle protests against the World Trade Organization in the 1990s these groups have made a profound mark This book tells their stories while showing how public interest groups helped ensure that a version of liberalism willing to challenge corporate power did not vanish from US politics Public interest groups believed that preserving liberalism at home meant confronting attempts to perpetuate conservative policies through global economic rules No Globalization Without Representation also illuminates how professionalized organizations became such a critical part of

liberal activism and how that has affected the course of U S politics to the present day **The Dialectics of Global Justice**

Bryant William Sculos,2022-07-01 *The Dialectics of Global Justice* uses a novel application of negative dialectical interpretation to offer an immanent and ethical critique of prominent theories of global justice i e cosmopolitanism including how these theories manifest in political movements and policy agendas Drawing on the work of Theodor Adorno and Erich Fromm especially author Bryant William Sculos exposes the contradictory relationship between cosmopolitanism and core elements of capitalism particularly the domineering capitalistic mentality re produced by and through capitalism leading to the conclusion that cosmopolitanism on its own terms demands an alternative postcapitalistic political basis in order to make robust progress toward global justice While offering this critique Sculos also implicitly challenges the increasingly common view that cosmopolitanism today is inherently imperialistic and out of touch with the global resurgence of nationalism and anti cosmopolitan sentiment *Citizens' Solidarity in Europe* Christian Lahusen,2020-03-28 *Citizens Solidarity in Europe* systematically dissects the manifestations of solidarity buried beneath the official policies and measures of public authority in Europe In this exciting and innovative book contributors offer comprehensive and original data and highlight the detrimental factors that tend to inhibit or annihilate solidarity and those that are beneficial for the nurturing of solidarity *Class, Race, and Gender* Michael Zweig,2023-11-28 *Class Race and Gender Challenging the Injuries and Divisions of Capitalism* is for those who want to understand the underlying connections among today s social justice movements Bringing forth the basic operations of capitalist economies it reveals what is driving many of today s most urgent and vexing problems the common origins of the inequalities of income wealth and power environmental devastation militarism racism and white supremacy patriarchy and male chauvinism periodic economic crises and the cultural conflicts that are tearing at US life Michael Zweig illuminates all propositions with specific examples from US history from the first settlement of the New World to current life including his own lived experiences as an activist educator and organizer over the past six decades As such the book is an urgently needed resource for activists and organizers seeking structural and moral transformation of life in the US Building on his analysis Zweig also presents strategies for political action in electoral and movement building work
