Henry Prunières

Ballet Cour France Benserade Delivrance:

Le ballet de cour en France avant Benserade et Lully, suivi du Ballet de la délivrance de Renaud Henry Prunières,1914 **Le ballet de cour en France, avant Benserade et Lully** Henry Prunières,1913 **Early Modern Diplomacy and French Festival Culture in a European Context, 1572-1615** Bram van Leuveren,2023-08-14 This book is the first to explore the rich festival culture of late sixteenth and early seventeenth century France as a tool for diplomacy Bram van Leuveren examines how the late Valois and early Bourbon rulers of the kingdom made conscious use of festivals to advance their diplomatic interests in a war torn Europe and how diplomatic stakeholders from across the continent participated in and responded to the theatrical and ceremonial events that featured at these festivals Analysing a large body of multilingual eyewitness and commemorative accounts as well as visual and material objects Van Leuveren argues that French festival culture operated as a contested site where the diplomatic concerns of stakeholders from various national religious and social backgrounds fought for recognition **Music and Theatre in France, 1600-1680** John S. Powell,2000 During the course of the 17th century the dramatic arts reached a pinnacle of development in France but despite the volumes devoted to the literature and theatre of the ancien régime historians have largely neglected the importance of music and dance This study defines the musical practices of comedy tragicomedy tragedy and mythological and non mythological pastoral drama from the arrival of the first repertory companies in Paris until the establishment of the Comédie Française The dynamic interaction of the performing arts in primarily spoken theatre cross fertilized by ballet de cour and imported Italian opera gave rise to a set of musical conventions that later informed the pastorale en musique and early French pastoral opera The performance history of four comédies ballets by Molière Lully and Charpentier leads to a discussion of the musical and balletic performance practices of Molière's theatre and the interconnections between Molière's last comédie ballet *Le Malade imaginaire* and Lully's first opera *Les Fêtes de l'Amour et de Bacchus* **A Catalogue of the Allen A. Brown Collection of Books Relating to the Stage in the Public Library of the City of Boston** Allen A. Brown Collection (Boston Public Library), Boston Public Library. Allen A. Browne Collection,1919 *The Cambridge Companion to Seventeenth-Century Opera* Jacqueline Waeber,2022-12-22 The Cambridge Companion to Seventeenth Century Opera is a much needed introduction to one of the most defining areas of Western music history the birth of opera and its developments during the first century of its existence From opera's Italian foundations to its growth through Europe and the Americas the volume charts the changing landscape on stage and beyond which shaped the way opera was produced and received With a range from opera's sixteenth century antecedents to the threshold of the eighteenth century this path breaking book is broad enough to function as a comprehensive introduction yet sufficiently detailed to offer valuable insights into most of early opera's many facets it guides the reader towards authoritative written and musical sources appropriate for further study It will be of interest to a wide audience including undergraduate and graduate students in universities and equivalent institutions and

amateur and professional musicians *The Cambridge Companion to Seventeenth-Century Opera* , **Virtue Ethics and Education from Late Antiquity to the Eighteenth Century** Andreas Hellerstedt, 2025-10-01 This book argues that pre modern societies were characterized by a common quest for human flourishing or excellence i e virtue The history of virtue is a particularly fruitful approach when studying pre modern periods Systems of moral philosophy and more day to day moral ideas and practices in which virtue was central were incredibly important in pre modern societies within and among diverse scholarly literary religious and social communities Virtue was a cornerstone of pre modern societies permeating society in many different ways and on many different levels and it was conveyed in erudite and pedagogical texts ritual performance and images The construction of virtues such as wisdom courage and justice helped shape identities and communities but also served to legitimize and reinforce differences pertaining to gender social hierarchies and nations On a more fundamental level studying the history of virtue helps us understand the guiding principles of historical action Thus we believe that the history of virtue is central to understanding these societies and that the history of virtue including criticisms of virtue and virtue ethics tells us important things about how men and women thought and acted in ages past **Music in the Seventeenth Century** Lorenzo Bianconi, 1987-11-26 Examines musical life in the seventeenth century a period of profound change in the history of music Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library. Research Libraries, 1979
