Olufsen the famous Danish producer of high end home electronics is well known as an early exponent of value based
management the idea that there should be consistency in what the organisation does a certain continuity between what the
company develops and sells and the beliefs and practices of the employees This study investigates how company values are
communicated and the collective identity is articulated through the use of such concepts as culture fundamental values and
corporate religion as well as how employees negotiate these ideas in their daily working lives As this book reveals the
identification of values meant to create cohesion and solidarity among employees came to symbolise and engender a split
