Bank Organizational Structure Committee And Executive Management Roles And Responsibilities:

The Role of Board Oversight in Central Bank Governance: Key Legal Design Issues Wouter Bossu, Arthur D. P. Rossi, 2019-12-27 This paper discusses key legal issues in the design of Board Oversight in central banks. Central banks are complex and sophisticated organizations that are challenging to manage. While most economic literature focuses on decision making in the context of monetary policy formulation, this paper focuses on the Board oversight of central banks, a central feature of sound governance. This form of oversight is the decision making responsibility through which an internal body of the central bank, the Oversight Board, ensures that the central bank is well managed. First, the paper will contextualize the role of Board oversight into the broader legal structure for central bank governance by considering this form of oversight as one of the core decision making responsibilities of central banks. Secondly, the paper will focus on a number of important legal design issues for Board Oversight by contrasting the current practices of the IMF membership's 174 central banks with staff's advisory practice developed over the past 50 years.

Regulation and Supervision of Bank Senior Management in Light of Prudential Corporate Governance Kimberley S. Rothwell, 2024-10-03 Ongoing conduct issues in the banking sector have sparked global discussions on the effectiveness of the corporate governance of these institutions. This dissertation commences by exploring the internationally evolving regulatory landscape of prudential corporate governance and the role of bank senior management within these frameworks using a law and economics perspective. Two model jurisdictions, the United Kingdom and the Netherlands, are identified as pioneers with their emerging approaches to tackle the persisting challenges. Against this backdrop, the study turns to Switzerland. It fills the gap of a comprehensive supervisory law analysis of bank senior management. For this purpose, the fragmented provisions are distilled from their institutional embedding and structured along the supervisory law life cycle of authorisation, ongoing supervision, and enforcement. Along each phase, the respective novel approaches from the model jurisdictions are presented. Through these analyses, the dissertation identifies gaps and inefficiencies in the Swiss supervisory law framework. These findings are synthesised in order to gain a holistic view of the current setup. Concluding future pathways for Switzerland are presented, also inspired by international developments, to propose a more structured, robust, and efficient framework for the regulatory oversight of the senior management of Swiss banks.
