Building The Primary Classroom A Complete Guide To Teaching And Learning:

Building the Primary Classroom Toni S. Bickart, Judy R. Jablon, Diane Trister Dodge, 1999 Building the Primary Classroom puts the best elements of classroom management and curriculum content together in one concise volume Teaching Women's Studies in Conservative Contexts Cantice Greene, 2016-01-13 Women's Studies is a field that inspires strong reactions both positive and negative inside and outside of the classroom The field partly due to its activist origins is often associated with liberal ideology and is therefore chided by students and others who identify as conservative The goal of this book is to introduce conservative perspectives into the issues of gender sexuality race and power that are topics of teaching and discussion in women's studies courses The book also aims to provide examples of pathways by which conservative students and scholars can engage the field of women's studies not as opponents but as contributors Contributors including administrators activists scholar teachers artists and ministers come together in this collection to engage in writing and response and to add their approaches to teaching and administering women's studies on their campuses **Resources in Education**, 2001-10 *Social Studies for Young Children* Gayle Mindes, 2013-11-01 Social studies is at the heart of content in education and takes on society's best hopes for helping children become good citizens and winners in the global economy In its comprehensive scope Social Studies for Young Children Preschool and Primary Curriculum Anchor fulfills the promise of social studies as an integrator of the knowledge and experiences of young children Filled with strategies activities and resources this book helps teachers develop a holistic culturally relevant approach to social studies and social learning It surveys the relevant state and national standards and offers essential guidance on how to integrate them into the curriculum while at the same time looking beyond the tests to foster young social scientists development into critical thinkers and lifelong learners Special features include Children's literature to foster social studies understanding Digital media for teaching and learning Emphasis on cross disciplinary synthesis **Love as Pedagogy** Tim Loreman, 2011-10-25 Love is a necessary ingredient of effective pedagogy yet to this point there has been a distinct lack of serious theoretical and practical work on the topic What does it really mean to adopt a loving approach to pedagogy This book provides a pragmatic and thoughtful treatment of the topic of love as pedagogy examining the use and role of love in teaching and learning and providing suggestions on how educators can effectively recognise and use love in their work This text begins with a discussion of what love is what pedagogy is and how the two are inseparable in an effective educational context It then moves on to address ethical considerations Drawing on discourse on love found in psychology philosophy and religion the text examines various aspects of love and their relationship to effective teaching and learning including kindness and empathy intimacy and bonding sacrifice and forgiveness and acceptance and community This book concludes with a photographic case study of loving pedagogy in action and practical suggestions for educators wishing to adopt the approach This text is suitable for educators at all levels especially those in early childhood elementary and secondary school settings

along with students in education and related programs at universities and colleges Tim Loreman PhD is Professor in the Faculty of Education at Concordia University College of Alberta Canada **Teaching Young Children Mathematics**

Janice Minetola, Robert Ziegenfuss, J. Kent Chrisman, 2013-09-11 Teaching Young Children Mathematics provides a comprehensive overview of mathematics instruction in the early childhood classroom Taking into account family differences language barriers and the presence of special needs students in many classrooms throughout the U S this textbook situates best practices for mathematics instruction within the larger frameworks of federal and state standards as well as contemporary understandings of child development Key topics covered include developmental information of conceptual understanding in mathematics from birth through 3rd grade use of national and state standards in math including the new Common Core State Standards information for adapting ideas to meet special needs and English Language Learners literacy connections in each chapter real world connections to the content and information for family connections to the content

Teach Janice Koch, 2018-12-04 Teach is a concise introduction to education that challenges readers preconceived notions of teaching in order to transform them into reflective practitioners Empathizing with the difficulties students face as they move from the college classroom to their own classrooms revered author Janice Koch invites readers to both reflect on their own dispositions for teaching and look outside of themselves to the demands of the profession making the philosophy of teaching and learning accessible and relevant The Fourth Edition emphasizes the changing student population and the role of technology and globalization in the field while also including the Interstate Teacher Assessment and Support Consortium InTASC standards correlating with each chapter's content With the guidance of this supportive text readers will gain vital exposure by engaging with professional standards from the very start of their career Teaching Young Children Social Studies Gayle Mindes, 2006-09-30 By linking theory to practice with an emphasis on national and state standards Head Start Performance Standards No Child Left Behind and IDEA the authors coherently combine principles of child development and social studies content to create a solid program for preschool through grade three The authors maintain the overriding idea throughout the Teaching Young Children series that strategies derived from knowledge of child development are used to teach content knowledge It is this concern that makes this volume an excellent resource for teachers and parents In addition to specific discussions of how to build and conduct a social studies curriculum the work includes vignettes of teachers and children in the classroom graphics illustrating concepts and methods and matrices charts and tables to enhance understanding The authors effectively intertwine social learning in young children and development of self concept with the theme based curriculum of the National Council for Social Studies the principles of multicultural education parent collaboration to support learning and creating connections between classroom and community *Teaching Children Mathematics*, 2000 **YC Young Children**, 2008
