Law, Policy and the Internet Lilian Edwards, 2018-11-29 This comprehensive textbook by the editor of Law and the Internet seeks to provide students practitioners and businesses with an up to date and accessible account of the key issues in internet law and policy from a European and UK perspective The internet has advanced in the last 20 years from an esoteric interest to a vital and unavoidable part of modern work rest and play As such an account of how the internet and its users are regulated is vital for everyone concerned with the modern information society This book also addresses the fact that internet regulation is not just a matter of law but increasingly intermixed with technology economics and politics Policy developments are closely analysed as an intrinsic part of modern governance Law Policy and the Internet focuses on two key areas e commerce including the role and responsibilities of online intermediaries such as Google Facebook and Uber and privacy data protection and online crime In particular there is detailed up to date coverage of the crucially important General Data Protection Regulation which came into force in May 2018

Ethics for Teachers and Middle Leaders Trevor Kerry, 2021-04-21 Every school has a mission statement based on values and ethical beliefs Ethics for Teachers and Middle Leaders sets out a way of thinking through the key issues of ethics in teaching and shows how a school s ethical values can be translated by students and staff into action It is designed to help rehearse certain ethical dilemmas and guide teacher leaders in helping others to think through and develop appropriate behaviours Chapters consider the role of ethics in all aspects of school life including teacher professionalism teaching methods lesson planning and assessment This book not only examines everyday concerns such as class management and presenting curriculum ethically but also touches upon emerging issues in e learning career building leadership and school governance Packed full of real examples from schools and opportunities to reflect the book will help readers to understand how their behaviour decisions and advice to others might be guided and to avoid some of the common pitfalls in school This insightful book will instil confidence in teachers and middle leaders as they face such ethical

dilemmas in their daily work

Contemporary Digital Forensic Investigations of Cloud and Mobile Applications

Kim-Kwang Raymond Choo, Ali Dehghantanha, 2016-10-12 Contemporary Digital Forensic Investigations of Cloud and Mobile Applications comprehensively discusses the implications of cloud storage services and mobile applications on digital forensic investigations. The book provides both digital forensic practitioners and researchers with an up to date and advanced knowledge of collecting and preserving electronic evidence from different types of cloud services such as digital remnants of cloud applications accessed through mobile devices. This is the first book that covers the investigation of a wide range of cloud services. Dr Kim Kwang Raymond Choo and Dr Ali Dehghantanha are leading researchers in cloud and mobile security and forensics having organized research led research and been published widely in the field. Users will gain a deep overview of seminal research in the field while also identifying prospective future research topics and open challenges. Presents the most current leading edge research on cloud and mobile application forensics featuring a panel of top experts in the field. Introduces the first book to provide an in depth overview of the issues surrounding digital forensic investigations in cloud and associated mobile apps. Covers key technical topics and provides readers with a complete understanding of the most current research findings. Includes discussions on future research directions and challenges.

Information Security

Theory and Practices: Security and Privacy of Pervasive Systems and Smart Devices Pierangela Samarati, Michael Tunstall, Joachim Posegga, Konstantinos Markantonakis, Damien Sauveron, 2010-04-09 This volume constitutes the refereed proceedings of the 4th IFIP WG 11.2 International Workshop on Information Security Theory and Practices Security and Privacy of Pervasive Systems and Smart Devices WISTP 2010 held in Passau Germany in April 2010. The 20 revised full papers and 10 short papers were carefully reviewed and selected from 69 submissions. They are organized in topical sections on embedded security protocols, highly constrained embedded systems security, smart card security, algorithms, hardware implementations, embedded systems and anonymity, database security.

Managing Digital Innovation

Sue Newell, Josh Morton, Marco Marabelli, Robert Galliers, 2019-11-28 This cutting edge new textbook examines how effective knowledge management can make organizations more innovative. Blending an extensive body of international research and analysis with examples of practical implementation, it demonstrates how organizational structures and strategies combined with digital technologies can better foster innovation. Critically rigorous and full of engaging pedagogy, this accessible textbook will enable readers to understand the complexity of innovation processes and the opportunities and challenges that face managers as they exploit new technologies to produce value. Contemporary case studies based on the authors' original research and focused on international organizations from a range of industries demonstrate the applicability of key theories and concepts to real world practical opportunities. This is an essential textbook for upper undergraduate, postgraduate and MBA students studying knowledge management and innovation. It is also suitable for any student of organisation studies wanting to understand more about the role that the digital has to play in fostering innovation and managing knowledge.
