A Prehistory Of Western North America The Impact Of Uto Aztecan Languages:

A Prehistory of Western North America David Leedom Shaul, 2014-06-30 This book offers a new approach to the use of linguistic data to reconstruct prehistory The author shows how a well studied language family in this case Uto Aztecan can be used as an instrument for reconstructing prehistory The main focus of Shaul s work is the mapping of Uto Aztecan By presenting various models of Uto Aztecan prehistory by assessing multiple models simultaneously and by guiding readers through areas where the evidence is not so clear Shaul helps nonspecialists develop the tools needed for evaluating various historical linguistics models themselves He evaluates both archaeological and genetic evidence as well placing it carefully alongside the linguistic evidence he knows best Shaul s thorough treatment provides many new avenues for future research on the historical anthropology of western North America [The Languages and Linguistics of Indigenous North America](#)

examines the history of O odham heritage as it was recorded at the beginning of European conquest A parallel history of scientific exploration is then traced forward to produce intricate models of the coming and going of ancient peoples Throughout this history Native accounts were routinely dismissed as an inferior kind of knowledge More recently though a revolutionary change has taken hold in archaeology as Native insights and premises are integrated into scientific thought Integration was once suspected of undermining basic principles of knowledge but J Brett Hill contends that it provides a deeper and more accurate sense of the connection between living and ancient people Hill combines three decades of experience in archaeology with a liberal arts perspective to produce something for readers at all levels in the fields of anthropology Native American studies history museum studies and other heritage disciplines **The Indigenous**

Naming the World Andrew Cowell, 2018-11-13 *Naming the World* examines language shift among the Northern Arapaho of the Wind River Reservation Wyoming and the community s diverse responses as it seeks social continuity Andrew Cowell argues that rather than a single Arapaho culture we find five distinctive communities of practice on the reservation each with differing perspectives on social and more than human power and the human relationships that enact power As the Arapaho people resist Euro American assimilation or domination the Arapaho language and the idea that the language is sacred are key rallying points but also key points of contestation Cowell finds that while many at Wind River see the language as crucial for maintaining access to more than human power others primarily view the language in terms of peer oriented identities as Arapaho Indian or non White These different views lead to quite different language usage and attitudes in relation to place naming personal naming cultural metaphors new word formation and the understudied practice of folk etymology Cowell presents data from conversations and other natural discourse to show the diversity of everyday speech and attitudes and he links these data to broader debates at Wind River and globally about the future organization of indigenous societies and the nature of Arapaho and indigenous identity

Iconicity of the Uto-Aztecs Tirtha Prasad Mukhopadhyay, Alan Philip Garfinkel, 2023-05-12 Uto Aztec iconic practices are primarily conditioned by the consciousness of the snake as a death dealing power and as such an animal that displays the deepest fears and anxieties of the individual The attempt to study a snake simulacrum thus constitutes the basic objective of this volume A long all embracing iconicity of snakes and related snake motifs are evident in different cultural expressions ranging from

rock art templates to other cultural artifacts like basketry pottery temple architecture and sculptural motifs Uto Aztecan iconography demonstrates a symbolic memorial order of emotional valences as well as the negotiations with death and a belief in rebirth just as the skin shedding snake reptile manifests in its life cycle
