A Psychotherapy Of Love Psychosynthesis In Practice:

A Psychotherapy of Love John Firman, Ann Gila, 2012-02-01 This book shows what psychosynthesis looks like in the empirical practice of psychotherapy Originally conceived by Italian psychiatrist Robert Assagioli psychosynthesis is one of the first Western psychologies that addresses both spiritual and psychological healing and growth through self realization In effect it offers an approach to psychotherapy founded in altruistic love and the nurturing that supports the innate drive within human beings to embrace and actualize the whole of who they are Authors John Firman and Ann Gila include experientially based models and theory case studies from both the client and therapist perspectives and an invitation for both the professional and the layperson to the self reflection inner work and commitment necessary to love and work at this depth After an overview of the fundamentals of psychosynthesis theory the authors explore how a therapist s own embrace of these ideas can foster an altruistic empathetic love that supports and improves therapist client rapport and progress

Grief and the Expressive Arts Barbara E. Thompson, Robert A. Neimeyer, 2014-01-10

The use of the arts in psychotherapy is a burgeoning area of interest particularly in the field of bereavement where it is a staple intervention in hospice programs children s grief camps specialized programs for trauma or combat exposure work with bereaved parents widowed elders or suicide survivors and in many other contexts But how should clinicians differentiate between the many different approaches and techniques and what criteria should they use to decide which technique to use and when Grief and the Expressive Arts provides the answers using a crisp coherent structure that creates a conceptual and relational scaffold for an artistically inclined grief therapy Each of the book s brief chapters is accessible and clearly focused conveying concrete methods and anchoring them in brief case studies across a range of approaches featuring music creative writing visual arts dance and movement theatre and performance and multi modal practices Any clinician expressive arts therapist grief counselor or something in between looking for a professionally oriented but scientifically informed book for guidance and inspiration need look no further than Grief and the Expressive Arts Re-evaluating Creativity Lili

Hernández-Romero,2017-03-29 This book proposes a groundbreaking approach to the study of personal creativity linking this to the analysis of the chakras or centers of energy of the subtle system suggested by the Eastern philosophy called Sahaja Yoga It argues that creativity is to be re learnt through a process of self review a self examination which is underpinned by the author s concept of the outsider to the self a pervasive condition characterized by a tendency to be connected to the outer world at the expense of the inner world The author analyses creativity from three different but interrelated aspects the individual society and education and maps out a route that may take the individuals into an understanding of blockages in their creative process It also examines aspects that have contributed to sustain the condition of the outsider to the self hindering people s creativity It argues that the traditional education system is both constricting and releasing factor of creativity Finally through the use of auto ethnography the author reveals a process of blocked and unblocked creativity This book is a key read for all those interested in psychology sociology education and cultural studies **Psycho-Social**
