Animal Souls Speak Robert Shapiro, 2007 Arcturus is the name given to the star system some thirty seven light years from our own. It includes at least a half dozen planetary bodies and is many times larger and much older than our own star and its system. Arcturian involvement with our system began over three million years ago when a space colony, a galactic space station was established on Velatropa 24 4 otherwise known as Mars. With its 40 000 year warm cycles Mars provided the perfect experimental way station. If anything went wrong at least those on the Arcturus system would not be affected or so it was thought. Some of those in command of the Martian project had not considered carefully enough the inexorable efficacy of karma, the law of cause and effect. By the time strange events began to transpire on Mars little did anyone on Mars or Arcturus reckon the strange consequences of forgetting about each other's mutual existence. Thus unfolds the tale of the Arcturian experimental way station V 24 4 otherwise known as Mars. *Mayan Calendar Birthday Book* Mary Fran Koppa, 1996 On the Mayan Calendar every day of the year represents the energy of one of the twenty solar glyphs and one of the thirteen numbers called tones. The solar glyph indicates your soul purpose and the tone is the energy you will use to attain this purpose.

Crystal Skulls Jaap van Etten, 2007-01-01 Crystal skulls invite you on a journey of deeper understanding of who you are. Learn to understand crystal skulls, their different characteristics, their special energies and how you can use these energies for your personal growth.

The Heart of Numerology Lynn Buess, 2012 Perhaps you have read a little about numerology and wondered just how it manages to reveal so much. If you have been looking for more information to take you beyond the elementary texts and teachings of numbers you have come to the right place. By choosing the study of this symbolic matrix you have chosen a path that can take you into the most sublime heights and penetrating depths of human consciousness and beyond. Do you want to know a secret? Many of them can be revealed as you weave your way through a multidimensional journey of symbolic delight that numerology presents.

Lynn Buess MA EdS has served more than one half of a century studying teaching and counseling in the field of symbols, cycles and numbers. Lynn is well qualified to be the one to outline this journey and help show you the way. He is the only practicing professional numerologist to have completed two accredited graduate degrees in which he specialized in the meaning of numbers and symbols and the psychological application of these symbols to life. In his teaching he reveals the psychology, cosmology and spirituality of numerology. To him numbers are not a static set of symbols; rather they are like cosmic chords of sound and light that help make up the rhythms of the cosmic dance. Would you like to dance?

A Course in Miracles Helen Schucman, 2009-05-15 A Course in Miracles often called just the Course is a self study course for retraining the mind that is spiritual rather than religious in its perspective Although it uses Christian terminology it is ecumenical in its approach and its underlying ontology is reminiscent of ancient refrains echoing the world's most hallowed traditions The Course is pragmatic in its method and its aim is a peaceful mind Knowledge is not the motivation for learning this course Peace is Nevertheless the Course frequently emphasizes its simplicity The edition of A Course in Miracles that is reproduced in this volume is sometimes referred to as the Hugh Lynn Cayce version because upon completion it had been delivered to Hugh Lynn Cayce son of the renowned psychic Edgar Cayce in 1972 before the manuscript was subjected to the substantial editing process that is described below
