

From the author of *A Little Light on Angels*

DIANA COOPER

The background of the book cover is a spiritual landscape. In the center, a mountain peak is illuminated by a bright, glowing light source, possibly the sun or a celestial body, which creates a lens flare effect. A wavy, ethereal light path spirals upwards from the water towards the peak. The sky is a mix of orange, red, and purple hues, suggesting a sunset or sunrise. The water in the foreground is a deep blue-green color.

Raising the Spiritual Light Quotient David K. Miller,2011-04-25 The concept of raising the spiritual light quotient is similar to the intelligence quotient used in modern psychology the IQ test However the spiritual light quotient is not the same as intelligence Rather the SLQ reflects one s ability to understand spiritual concepts to meditate and to connect with other dimensions It also is a measurement of one s ability to understand the relationship between Earth and the environment of the Earth and Earth s relationship to the galaxy Finally it is a measurement of one s ability to understand the existence of other dimensions as well as the relationship between the ascended masters and guides and our journey to higher realms for soul evolution Thus it appears necessary to look at the SLQ of a person the SLQ of an area and the SLQ of a planet All of the channeling I bring forth is based on the concept of the Sacred Triangle which is a new paradigm for spirituality This paradigm states that in order to heal Earth and bring everything into balance one must unite the concepts of galactic spirituality with ancient mystical thought and with the energies of native peoples including Native Americans
