A Phoenician Punic Grammar Handbook Of Oriental Studies:

A Phoenician-Punic Grammar Charles R. Krahmalkov, 2015-11-02 Carefully selected examples from texts and dialects of the whole Phoenician Punic period bring to life the grammatical description of this language Included are fully vocalized Punic and Neo Punic inscriptions of Roman Tripolitania in Latin orthography as well as the literary fragments of Punic drama as found in Plautus comedy *Poenulus* This classical descriptive grammar of the Phoenician Punic language 1200 BCE 350 CE presents the reader with a full picture its phonology orthography morphology syntax and usage Its history and its various dialects are dealt with in an introduction Hebraists and Semitists will find the description of the verbal system of particular interest to them especially that of the literary language which holds that tense and aspect reference of a given form of the verb is largely a function of syntax not morphology Much of this grammatical material is presented here for the first time

Encyclopedia of Gods and Goddesses of Mesopotamia Phoenicia, Ugarit, Canaan, Carthage, and the Ancient Middle East. V.II Maximillien De Lafayette, 2015-02-24 *Encyclopedia of Gods and Goddesses of Mesopotamia Phoenicia Ugarit Canaan Carthage and the Ancient Middle East Volume II I Z Igigi Zerpanitum* from a set of two volumes Published by Times Square Press New York and Berlin This encyclopedia lists and defines approximately 125 gods and goddesses and includes translations of Akkadian Sumerian Chaldean and Assyrian texts and tablets by a noted scholar and one of the world's most distinguished linguists who authored more than 20 encyclopedic dictionaries and 3 encyclopedias on the languages culture religion and history of the ancient Middle East and Near East The encyclopedia is highly recommended to universities professors who teach those fields as well as to all those who are interested in the culture religions and civilizations of the ancient world *The Syntax of Volitives in Biblical Hebrew and Amarna Canaanite Prose* Hélène M. Dallaire, 2014-10-30

During the past century numerous books and articles have appeared on the verbal system of Semitic languages Thanks to the discovery of Ugaritic texts Akkadian tablets Canaanite letters found at Tell el Amarna in Egypt Hebrew and Aramaic inscriptions and the Dead Sea Scrolls our understanding of the phonology morphology and syntax of the Semitic languages has increased substantially Dallaire focuses primarily on prose texts in Biblical Hebrew and Amarna Canaanite in which the verbal system morphemes syntax expresses nuances of wishes desires requests and commands According to her volitional concepts are found in every language and are expressed through verbal morphemes syntagmas intonation syntax and other linguistic means *The Syntax of Volitives in Biblical Hebrew and Amarna Canaanite Prose* attempts to answer the following questions Do volitives function in a similar way in Biblical Hebrew and Amarna Canaanite Where and why is there overlap in morphology and syntax between these two languages What morphological and syntactical differences exist between the volitional expressions of the languages In attempting to answer these questions the author bears in mind the fact that within each of these two languages scribes from different areas used specific dialectal and scribal traditions for example northern versus southern peripheral versus central *The Semitic Languages* Stefan Weninger, 2011-12-23 The handbook The

Semitic Languages offers a comprehensive reference tool for Semitic Linguistics in its broad sense. It is not restricted to comparative Grammar although it covers also comparative aspects including classification. By comprising a chapter on typology and sections with sociolinguistic focus and language contact, the conception of the book aims at a rather complete unbiased description of the state of the art in Semitics. Articles on individual languages and dialects give basic facts as location numbers of speakers, scripts, numbers of extant texts and their nature, attestation where appropriate and salient features of the grammar and lexicon of the respective variety. The handbook is the most comprehensive treatment of the Semitic language family since many decades.

The Verb in Classical Hebrew Bo Isaksson, 2024-09-17. The consecutive tenses are fundamental in all descriptions of Classical Hebrew grammar. They are even basic to the textbooks on Biblical Hebrew. Being fundamental in the verbal system and part of any beginner's grammar, they pose a serious problem to a linguistic understanding of the verbal system since grammars describe an alternation of forms or tenses in double pairs: wayyiq ol alternates with its equivalent qa al, and w qa al alternates with its equivalent yiq ol. This enigma in the verbal system is handled in the book by recognising that the alternation of the consecutive tenses with other tenses in the reality of the text represents a linking of clauses. The consecutive tenses are clause types with a natural language connective wa directly followed by a finite verbal morpheme, a type of clause that expressed continuity in the earliest stage of Semitic. The commonly held assumption that there is a special consecutive waw is unwarranted. The use of the consecutive clause types in order to express discourse continuity indicates that Classical Hebrew has retained the old unmarked declarative word order of Semitic syntax. Seen in the light of recent research on the Tiberian reading tradition, the consecutive wayyiq ol can be analysed as a retention of the old Semitic past perfective wa yaqtul, which was pronounced wa yiq ol in Classical Hebrew. The consecutive w q al pronounced wa qa al in the classical language constitutes the result of an internal Hebrew development into a construction in the sense of Joan Bybee already foreshadowed in the earliest Northwest Semitic languages. The book understands the consecutive tenses as discourse continuity clauses which typically form chains of main line clauses. Such chains can be interrupted by other types of clauses. This interruption is a clause linking that receives special attention in the interpretation of the Classical Hebrew verbal system. Chapter six presents a regenerated text linguistics founded on the new terminology. A clause linking approach is the central methodological procedure in this book. To this must be added diachronic typology in a comparative Semitic setting. The linguistic examples of clause linking are gathered from a large Classical

Hebrew corpus the Pentateuch and the Book of Judges and made searchable in a database of 6559 non archaic text records
