The Comics of Joss Whedon Valerie Estelle Frankel, 2015-06-08 A great deal of scholarship has focused on Joss Whedon's television and film work which includes Buffy the Vampire Slayer Firefly Doctor Horrible's Sing Along Blog The Cabin in the Woods and The Avengers But Whedon's work in the world of comics has largely been ignored He created his own dystopian heroine Fray assembled the goofy fannish heroes of Sugarshock and wrote arcs for Marvel's Astonishing X-Men and Runaways Along with The Avengers Whedon's contributions to the cinematic Universe include script doctoring the first X-Men film writing a ground shaking Wonder Woman screenplay and co-creating ABC's Agents of S.H.I.E.L.D. Today Whedon continues the Buffy and Firefly stories with innovative comics that shatter the rules of storytelling and force his characters to grow through life altering conflicts This collection of new essays focuses on Whedon's comics work and its tie-ins with his film and television productions emphasizing his auteurism in crossing over from panel to screen to panel Essays focus on the comic inspirations and subversive tropes of the Whedonverse as well as character changes and new interpretations
