Hopewell Christopher Carr,D. Troy Case,2005-11-22 Among the most socially and personally vocal archaeological remains on

the North American continent are the massive and often complexly designed earthen architecture of Hopewellian peoples of two thousand years ago their elaborately embellished works of art made of glistening metals and stones from faraway places and their highly formalized mortuaries In this book twenty one researchers in interwoven efforts immerse themselves and the reader in this vibrant archaeological record in order to richly reconstruct the societies rituals and ritual interactions of Hopewellian peoples By finding the faces actions and motivations of Hopewellian peoples as individuals who constructed knowable social roles the authors explore in a personalized and locally contextualized manner the details of Hopewellian life leadership its sacred and secular power bases recruitment and formalization over time systems of social ranking and prestige animal totemic clan organization kinship structures and sodalities gender roles prestige work load and health community organization in its tri scalar residential symbolic and demographic forms intercommunity alliances and changes in their strategies and expanses over time and interregional travels for power questing pilgrimage healing tutelage and acquiring ritual knowledge This book is useful to scholars graduate students and advanced undergraduates interested in the workings and development of social complexity at local and interregional scales recent theoretical developments in the anthropology of the topics listed above the prehistory of eastern North America its history of intellectual development and Native American ritual symbolism and belief

Types of Thinking S. Ian Robertson, 2013-09-05 Types of Thinking provides a basic grounding in the psychology of thinking for undergraduate students with little previous knowledge of cognitive psychology This clear well structured overview explores the practical aspects and applications of everyday thinking creative thinking logical and scientific thinking intelligent thinking and machine thinking It also explores failures of thinking the biases and shortcuts that sometimes lead our thinking astray The author tackles big ideas in an accessible manner and in an entertaining style ensuring that Types of Thinking will be attractive not only to students but also to teachers organising and planning courses as well as the lay reader

Cognitive Neurorehabilitation Donald T. Stuss, Gordon Winocur, Ian H. Robertson, 1999-10-07 This is the first truly comprehensive survey of cognitive rehabilitation spanning the spectrum from basic science to functional outcome The international team of expert authors provide a critical review of theoretical and methodological issues relating to specific rehabilitation procedures and also to programme organization and management The book is based on the twin premises that basic science is the foundation of rehabilitation and that successful outcome is dependent on the specificity of the rehabilitation In demonstrating this the book goes beyond cognitive rehabilitation treatments to cover biological psychological social and historical factors such as course of recovery mood and motivation family environment education and age With its emphasis on scientific principles multidisciplinary practice and functional outcome this book will serve as an essential resource for all scientists and clinicians concerned with cognitive deficits secondary to altered brain functioning and particularly to psychologists neurologists psychiatrists occupational therapists and physical therapists

Sociology CN Shankar Rao, 2012 This textbook has been comprehensively written to acquaint the

students with the fundamental concepts of sociology as well as provide an introduction to the diverse field of sociology. Students will be introduced to the origins of sociology as a discipline and would get acquainted with relevant topics such as inequality, institutions, control, change, disorganisation, problems in the society. Topics such as applied sociology and social thought have also been provided to give a complete overview of the subject. This textbook not only caters as a primary text to the undergraduate students of Sociology but is also a useful reference for postgraduate students and aspirants appearing for various competitive examinations.
