

APA Referencing

THIS IS A QUICK GUIDE TO THE APA REFERENCING STYLE (6TH EDITION)

- The **American Psychological Association** reference style uses the Author-Date format.
- Refer to the *Publication Manual of the American Psychological Association* (6th ed.) for more information. Check the Library Catalogue for call number and location(s).
- When quoting directly or indirectly from a source, **the source must be acknowledged in the text** by author name and year of publication. If quoting directly, a location reference such as **page number(s)** or **paragraph number** is also required.

IN-TEXT

Direct quotation – use quotation marks around the quote and include page numbers

Samovar and Porter (1997) point out that "language involves attaching meaning to symbols" (p.188).
Alternatively, "Language involves attaching meaning to symbols" (Samovar & Porter, 1997, p.188).

Indirect quotation/paraphrasing – no quotation marks

Attaching meaning to symbols is considered to be the origin of written language (Samovar & Porter, 1997).

N.B. Page numbers are optional when paraphrasing, although it is useful to include them (Publication Manual, p. 171).

Citations from a secondary source

As Hall (1977) asserts, "culture also defines boundaries of different groups" (as cited in Samovar & Porter, 1997, p. 14).

- At the end of your assignment, you are required to provide the full bibliographic information for each source. References must be listed in alphabetical order by author.
