Andre Grabar:

Christian Iconography André Grabar, 2023-08-15 An illuminating look at the iconography of the early church and its important place in the history of Christian art In this book historian Andr Grabar demonstrates how early Christian iconography assimilated contemporary imagery of the time Grabar looks at the most characteristic examples of paleo Christian iconography dwelling on their nature form and content He explores the limits of originality in such art its debt to figurative art and the broader cultural climate in the Roman Empire drawing a distinction between expressive images that is genuine works of art and informative ones Throughout Grabar establishes the importance of imperial iconography in the development of Christian portraits and sheds light on the role they played alongside other forms of Christian piety in their day

The End of the Jihād State Khalid Yahya Blankinship, 1994-01-01 Demonstrates for the first time that the cause of the Umayyad caliphate s collapse came not just from internal conflict but from a number of external and concurrent factors that exceeded the caliphate s capacity to respond

The Oliphant Avino'am Šālēm, 2004-01-01 This book discusses a group of medieval carved ivory horns namely oliphants It draws upon medieval visual as well as literary sources both Arabic and Latin with an eye to providing an original interpretation of these objects In doing so it breaks new ground in the understanding of both oliphants and the historical context of medieval artefacts in general

Modern Perspectives in Western Art History W. Eugene Kleinbauer, Medieval Academy of America, 1989-01-01 A collection of essays that reflect the breadth of twentieth century scholarship in art history Kleinbauer has sought to illustrate the variety of methods scholars have developed for conveying the unfolding of the arts in the Western world Originally published by Holt Rinehart and Winston 1971

The Beginnings of Christian Art, 200-395 André Grabar, 1967 *PERSPECTIVES AND APPROACHES IN HISTORICAL RESEARCH* Florina Alexandra MATEȘAN, Adrian-Gabriel MATEȘAN, 2025-01-01 The volume Perspectives and Approaches in Historical Research brings together the collaborative efforts of young doctoral students from important university centers in Romania the Republic of Moldova and Bulgaria to outline different approaches to researching historical subjects by combining diversified techniques based on interdisciplinarity and pluridisciplinarity The entire endeavor began in 2020 when the National Conference of the Doctoral School of the Faculty of History University of Bucharest was held an event that expanded in 2022 to include participants from neighboring countries The good practices shared during these events contributed to the creation of this volume which through its historical perspective presents models for applying academic rigor in historical research

Before the Normans Barbara Kreutz, 1991 Kreutz writes the first modern study in English of the land political structures and cultures of southern Italy in the two centuries before the Norman conquest

A Realist Theory of Art History Ian Verstegen, 2013 As the theoretical alignments within academia shift this book introduces a surprising variety of realism to abolish the old positivist theory dichotomy that has haunted Art History Demanding frankly the referential detachment of the objects under study the book proposes a stratified multi causal account of art history that

addresses postmodern concerns while saving it from its errors of self refutation Building from the very basic distinction between intransitive being and transitive knowing objects can be affirmed as real while our knowledge of them is held to be fallible Several focused chapters address basic problems while introducing philosophical reflection into art history These include basic ontological distinctions between society and culture general and special history the discontinuity of cultural objects the importance of definition for special history scales facets and fiat objects as forms of historical structure the nature of evidence and proof historical truth and controversies Stressing Critical Realism as the stratified multi causal approach needed for productive research today in the academy this book creates the subject of the ontology of art history and sets aside a theoretical space for metaphysical reflection thus clarifying the usually muddy distinction between theory methodology and historiography in art history

The Thief, the Cross and the Wheel Mitchell B. Merback, 2001-03-15 Christ s Crucifixion is one of the most recognized images in Western culture and it has come to stand as a universal symbol of both suffering and salvation But often overlooked is the fact that ultimately the Crucifixion is a scene of capital punishment Mitchell Merback reconstructs the religious legal and historical context of the Crucifixion and of other images of public torture The result is a fascinating account of a time when criminal justice and religion were entirely interrelated and punishment was a visual spectacle devoured by a popular audience Merback compares the images of Christ s Crucifixion with those of the two thieves who met their fate beside Jesus In paintings by well known Northern European masters and provincial painters alike Merback finds the two thieves subjected to incredible cruelty cruelty that artists could not depict in their scenes of Christ s Crucifixion because of theological requirements Through these representations Merback explores the ways audiences in early modern Europe understood images of physical suffering and execution The frequently shocking works also provide a perspective from which Merback examines the live spectacle of public torture and execution and how audiences were encouraged by the Church and the State to react to the experience Throughout Merback traces the intricate and extraordinary connections among religious art devotional practice bodily pain punishment and judicial spectatorship Keenly aware of the difficulties involved in discussing images of atrocious violence but determined to make them historically comprehensible Merback has written an informed and provocative study that reveals the rituals of medieval criminal justice and the visual experiences they engendered

The Image of Guadalupe Jody Brant Smith, 1994 The world renowned Image of Our Lady of Guadalupe has mystified and evoked the adoration of millions since its first appearance in Mexico City in 1531 The origin of the Image has baffled believer and skeptic alike In his unparalleled examination of the Guadalupe mystery Professor Jody Brant Smith equally sensitive to the demands of objectivity and reverence diligently applies current techniques of scientific and historical scrutiny like that used in investigating the Shroud of Turin to determine if the Image is attributable to myth or miracle Here he continues his discussion of the enigmatic origin and history of the Image and offers new insight from his career long exploration of the Guadalupan mystery
