**SCORING THE EXAM** The multiple choice section of the exam is scored by crediting each correct answer with one point and deducting one fourth of a point for each incorrect answer You will neither receive a credit nor suffer a deduction for unanswered questions The free response essays are graded by instructors and professors from across the country who come together each June for a week of non stop AP essay grading Each essay booklet is read and scored by several graders Each grader provides a score for the individual essays The DBQ is scored on a scale from 0 to 15 0 being the lowest and 15 the highest Each topic based essay receives a score from 0 to 9 These scores are concealed so that each grader is unaware of the previous graders assessments When the essays have been graded completely the scores are averaged one score for each essay so that the free response section generates three scores The total weight of the free response section is 50 percent of the total score Your work in the multiple choice section counts for the other 50 percent Each year grades fluctuate slightly because the grading scale is adjusted to take into account the performance of the total AP U S History test taker population When used with the corresponding chart the scoring method we present here will strongly approximate the score you would receive if you were sitting for the actual AP U S History exam

**SCORING THE MULTIPLE CHOICE SECTION** For the multiple choice section use this formula to calculate your raw score  

$$\text{Number right} - \frac{\text{number wrong}}{4} = \text{raw score round to the nearest whole number}$$
**SCORING THE FREE RESPONSE SECTION**  
For the free response section use this formula to calculate your raw score  

$$\text{DBQ} + \frac{\text{Essay 1} + \text{Essay 2}}{2} = \text{raw score round to the nearest whole number}$$
You may want to give your essays three different grades such as a 13 10 and an 8 and then calculate your score three ways as if you did
