Principles of Property Law Samantha J. Hepburn, 2001 This comprehensive text covers all of the materials relevant to property law in a detailed and thorough manner The second edition examines the basic tenants of property law as well as specific property interests such as land interests and the way in which these interests are conveyed registered and co ordinated The book considers the development of native title as a legally recognised form of property in Australia and how such an interest sits within the common law and statutory infrastructure Principles of Property Law is a vital book for students studying this complex area and is also a valuable addition to the library of academics and practitioners interested in this field [Australian Principles of Property Law](#) Samantha Hepburn, 2006-02-28 This text examines basic tenets of

property law such as the doctrine of estates legal and equitable interests methods of registering and prioritising interests in property It also examines specific property interests and the way in which interest is conveyed registered and co ordinated

Australian Principles of Property Law Samantha Hepburn, 2013-05-13 Australian Principles of Property Law now in its third edition covers all aspects of Australian real property law Each chapter has been expanded and updated to incorporate the latest developments and theories Incorporating academic discussion of historical and theoretical issues underlying the property system as well as practical discussion of relevant legislative schemes this textbook is the ideal accompaniment to any undergraduate property law course Focusing on Victorian law the text also outlines developments in other states and provides technical explanations where necessary It is supported throughout by extracts from a wide range of cases and materials

Principles of Property Law Alison Clarke, 2020-06-11 Principles of Property Law offers a critical and contextual analysis of fundamental property law providing students with the tools to enable them to make sense of English land law rules in the context of real world applications This new book adopts a contextual approach placing the core elements of a qualifying law degree property and land law course in the context of general principles and practices as they have developed in the UK and other jurisdictions in response to a changing societal relationship with a variety of factors Also drawing on concepts of property developed by political theorists economists and environmentalists Principles of Property Law gives students a clear understanding of how property law works why it matters and how the theory connects with the real world Suitable for undergraduates studying property and land law in England Wales and Northern Ireland as well as postgraduate students seeking an accessible analysis

The Boundaries of Australian Property Law Hossein Esmaeili, Brendan Grigg, 2016-09-22 The Boundaries of Australian Property Law offers a unique perspective on real property law in Australia As the overwhelming majority of land interests in Australia now fall under the Torrens title system this book's particular focus on the development and operation of the Torrens system in Australia is both timely and welcome Addressing the prescribed Priestly 11 requirements for a property law subject in Australia this informative and academically rigorous book includes carefully selected statutory material and case law from all Australian jurisdictions as well as the

United Kingdom The general law system is also discussed and referred to where necessary to give context and depth to the analysis of real property law Written by prominent real property law academics from law schools around Australia and edited by Hossein Esmaeili and Brendan Grigg this text is a modern and much needed addition to real property law literature

Australian Property Law Michael Nancarrow, Penny Carruthers, Steven White, Christopher Boge, Dominic Cudmore, Astrid Di Carlo, 2022-09-30 Australian Property Law Principles to Practice is an engaging introduction to property law in Australia Covering substantive law and procedural matters this textbook presents the law of personal and real property in a contemporary light Australian Property Law details how property law practice is transformed by technology and provides insights into contemporary challenges and risks Taking a thematic approach the text covers possession of goods and land land tenure estates and future interests property registration systems Indigenous land rights and native title social housing Crown land and ethics Complex concepts are contextualised by linking case law and legislation to practical applications Each chapter is supported by digital tools including case and legislation boxes with links to the full source online links to useful online resources multiple choice questions review questions and longer narrative problems Australian Property Law provides an essential introduction to the principles and practice of property law in an ever changing technological environment *Liberating the Will of Australia* Geoffrey Burn, 2020-08-03 Why do many First People in Australia find themselves continually under siege Why do many interventions fail to produce what was hoped for Why is it that when there have been many positive developments at some deep level nothing seems to have changed Will the Uluru Statement from the Heart ensure the future security of the First Peoples in Australia By developing strands from Christian theology *Liberating the Will of Australia* answers these questions in a way that gets to the heart of the problem It is shown that the way that the First Peoples were treated by the first European in comers became an indelible part of what Australia currently is This explains why harm is often done even when good is intended and why some problems are too complex to solve But that does not mean that we need to be stuck in the past through deep repentance by the Subsequent Peoples much more than an apology we can take hold of the work of God to bring new things out of what is broken Ultimately this is profoundly hopeful Although focusing on Australia the theological tools developed can be applied in other colonial and post colonial contexts The Making of Australian Property Law A. R. Buck, 2006 In 1847 in one of the most important cases in Australian legal history the Chief Justice of NSW Sir Alfred Stephen handed down a decision that would have profound implications for both the development of Australian property law and the property rights of the Aboriginal peoples of Australia The case was Attorney General v Brown and in his decision Stephen CJ ruled that the laws of property in Australia were governed by feudal principles The shadow cast by Attorney General v Brown has been a long one stretching down to the decision in Mabo and beyond Judicial thinking and much legal scholarship continues to emphasise a connection between the feudal origins of the English law and the state of contemporary Australian property law thereby perpetuating a nostalgic view

of Australian property law This book in contrast argues that the feudal imprint on property in Australia had been washed away by the early 1860s and that the decades of the early nineteenth century witnessed the making of a distinct Australian property law Egalitarianism rather than feudalism this book argues shaped the emergence of Australian property law This book situates legal development in its social and political context re evaluating the relationship between political ideas social values and law reform in early Australia State-Owned Entities and Human Rights Mihaela Maria Barnes,2021-12-02
Examines the fundamental role played by international law in the regulation of State owned entities from a human rights perspective **Government Gazette** New South Wales,1911
