Hollywood Film Music Miguel Ángel Pérez Pérez,2004 "Identity and Locality in Early European Music, 1028?740 " Jason Stoessel,2017-07-05 This collection presents numerous discoveries and fresh insights into music and musical practices that shaped distinctly localized individual and collective identities in pre modern and early modern Europe Contributions by leading and emerging European music experts fall into three areas plainchant traditions in Aquitania and the Iberian peninsula during the first 700 years of the second millennium late medieval musical aesthetics traditions and practices in Paris Padua Prague and more generally England Germany and Spain and local traditions in Renaissance Augsburg and Baroque Naples and Dresden In addition to in depth readings of anonymous musical traditions contributors provide new details concerning the lives and music of well known composers such as Ad r de Chabannes Bartolino da Padova Ciconia Josquin Senfl Alessandro Scarlatti Heinichen and Zelenka This book will appeal to a broad range of readers including chant scholars medievalists music historians and anyone interested in music s place in pre modern and early modern European culture

Musical Voices of Early Modern Women Thomasin LaMay,2017-05-15 Recent scholarship has offered a veritable landslide of studies about early modern women illuminating them as writers thinkers midwives mothers in convents at home and as rulers Musical Voices of Early Modern Women adds to the mix of early modern studies a volume that correlates women s musical endeavors to their lives addressing early modern women s musical activities across a broad spectrum of cultural events and settings The volume takes as its premise the notion that while women may have been squeezed to participate in music through narrower doors than their male peers they nevertheless did so with enthusiasm diligence and success They were there in many ways but as women s lives were fundamentally different and more private than men s were their strategies tools and appearances were sometimes also different and thus often unstudied in an historical discipline that primarily evaluated men s productivity Given that many of these stories will not necessarily embrace a standard musical repertoire even as they seek to expand canonical borders The contributors to this collection explore the possibility of a larger musical culture which included women as well as men by examining early modern women in many headed ways through the lens of musical production They look at how women composed assuming that compositional gender strategies may have been used differently when applied through her vision how women were composed or represented and interpreted through music in a larger cultural context and how her presence in that dialog situated her in social space Contributors also trace how women found music as a means for communicating for establishing intellectual power for generating musical tastes and for enhancing the quality of their lives Some women performed publicly and thus some articles

examine how this impacted on their lives and families Other contributors inquire about the economics of music and women and how in different situations some women may have been financially empowered or even in control of their own money making This collection offers a glimpse at women from home stage work and convent from many classes and from culturally diverse countries including France Spain Italy England Austria Russia and Mexico and imagines a musical history centered in the realities of those lives

The Singer-Songwriter in Europe Isabelle Marc, Stuart Green, 2016-03-22 The Singer Songwriter in Europe is the first book to explore and compare the multifaceted discourses and practices of this figure within and across linguistic spaces in Europe and in dialogue with spaces beyond continental borders The concept of the singer songwriter is significant and much debated for a variety of reasons Many such musicians possess large and zealous followings their output often esteemed politically and usually held up as the nearest popular music gets to high art such facets often yielding sizeable economic benefits Yet this figure per se has been the object of scant critical discussion with individual practitioners celebrated for their isolated achievements instead In response to this lack of critical knowledge this volume identifies and interrogates the musical linguistic social and ideological elements that configure the singer songwriter and its various equivalents in Europe such as the French auteur compositeur interprète and the Italian cantautore since the late 1940s Particular attention is paid to the emergence of this figure in the post war period how and why its contours have changed over time and space subsequently cross cultural influences and the transformative agency of this figure as regards party and identity politics in lyrics and music often by means of individual case studies The book's polycentric approach endeavours to redress the hitherto Anglophone bias in scholarship on the singer songwriter in the English speaking world drawing on the knowledge of scholars from across Europe and from a variety of academic disciplines including modern language studies musicology sociology literary studies and history
