Being Watched Yvonne Rainer And The 1960s October Books:

Being Watched Carrie Lambert-Beatty, 2011-02-25 How Yvonne Rainer's art shaped new ways of watching as well as performing how it connected 1960s avant garde art to politics and activism In her dance and performances of the 1960s Yvonne Rainer famously transformed the performing body stripped it of special techniques and star status traded its costumes and leotards for T shirts and sneakers asked it to haul mattresses or recite texts rather than leap or spin Without discounting these innovations Carrie Lambert Beatty argues in *Being Watched* that the crucial site of Rainer's interventions in the 1960s was less the body of the performer than the eye of the viewer or rather the body as offered to the eye Rainer's art Lambert Beatty writes is structured by a peculiar tension between the body and its display Through close readings of Rainer's works of the 1960s from the often discussed dance Trio A to lesser known Vietnam war era protest dances Lambert Beatty explores how these performances embodied what Rainer called the seeing difficulty As Rainer said Dance is hard to see Viewed from this perspective Rainer's work becomes a bridge between key episodes in postwar art Lambert Beatty shows how Rainer's art and related performance work in Happenings Fluxus and Judson Dance Theater connects with the transformation of the subject object relation in minimalism and with emerging feminist discourse on the political implications of the objectifying gaze In a spectacle soaked era moreover when images of war played nightly on the television news Rainer's work engaged the habits of viewing formed in mass media America linking avant garde art and the wider culture of the 1960s Rainer is significant argues Lambert Beatty not only as a choreographer but as a sculptor of spectatorship *An Anarchitectural Body of Work* Friederike Schäfer, 2025-05-19 The artist dancer and educator Suzanne Harris 1940-79 was a protagonist of the downtown New York City artists community in the 1970s With her boundary transgressing practice she played a decisive part in avant garde projects such as the Anarchitecture group 112 Greene Street FOOD and the Natural History of the American Dancer Harris furthermore participated in the Heresies editorial collective Nevertheless her own oeuvre fell into abeyance Friederike Sch fer reconstructs Harris's dispersed postminimalist body of work which broke the mold of art categories art practices art spaces and the common notion of space The author draws on post Marxist feminist theory to trace how Harris transcended both sculpture and dance to create site specific ephemeral installations Second revised edition Recipient of the Terra Foundation for American Art International Publication Grant 2021 Look Inside

Each One Another Rachel Haidu, 2023-07-28 A consideration of how contemporary art can offer a deeper understanding of selfhood With *Each One Another* Rachel Haidu argues that contemporary art can teach us how to understand ourselves as selves how we come to feel oneness to sense our own interiority and to shift between the roles that connect us to strangers those close to us and past and future generations Haidu looks to intergenerational pairings of artists to consider how three aesthetic vehicles shape in painting characters in film and video and roles in dance allow us to grasp selfhood Better understandings of our selves she argues complement our thinking about identity and subjecthood She shows how Philip

Guston's figurative works explore shapes descriptive capacities and their ability to investigate history while Amy Sillman's paintings allow us to rethink expressivity and oneness. Analyzing a 2004 video by James Coleman Haidu explores how we enter characters through their interior monologues and she also looks at how a 2011 film by Steve McQueen positions a protagonist's refusal to speak as an argument for our right to silence. In addition Haidu examines how Anne Teresa de Keersmaecker's distribution of roles across dancers invites us to appreciate formal structures that separate us from one another while Yvonne Rainer's choreography shows how such formal structures also bring us together. Through these examples *Each One Another* reveals how artworks allow us to understand oneness interiority and how we become fluid agents in the world and it invites us to examine critically and forgivingly our attachments to selfhood.

Thinking Through Theatre and Performance Maaike Bleeker, Adrian Kear, Joe Kelleher, Heike Roms, 2019-02-07 *Thinking Through Theatre and Performance* presents a bold and innovative approach to the study of theatre and performance. Instead of topics, genres, histories or theories, the book starts with the questions that theatre and performance are uniquely capable of asking: How does theatre function as a place for seeing and hearing? How do not only bodies and voices but also objects and media perform? How do memories, emotions and ideas continue to do their work when the performance is over? And how can theatre and performance intervene in social, political and environmental structures and frameworks? Written by leading international scholars, each chapter of this volume is built around a key performance example and detailed discussions introduce the methodologies and theories that help us understand how these performances are practices of enquiry into the world. *Thinking through Theatre and Performance* is essential for those involved in making, enjoying, critiquing and studying theatre and will appeal to anyone who is interested in the questions that theatre and performance ask of themselves and of us.

The Theatricalists Theron Schmidt, 2024-09-15 Examines how the politics of the theater can illuminate the theatricality of politics. Theatricality is often dismissed as a distraction from real politics as when cynical political gestures are derided as pure theater or only theater. But the artists and theater companies discussed in this book, including Back to Back Theatre, Tim Crouch, Rabih Mroue, Nature Theater of Oklahoma and Christoph Schlingensiefel, take a different approach. Theron Schmidt argues that they represent a theatricalist turn that explores and tests the conditions of the theater itself. Across diverse contexts of political engagement ranging from disability rights to representations of violence, these theatrical conditions are interconnected with political struggles such as those over who is seen and heard, how labor is valued and what counts as political in the first place. In a so-called post-political era, *The Theatricalists* argues that an examination of theater's internal politics can expand our understanding of the theatricality of politics more broadly.

Juliet Mitchell and the Lateral Axis R. Duschinsky, S. Walker, 2015-03-18 This volume fills the gap in books dedicated to the ideas of ground-breaking theorist Juliet Mitchell. Essays from internationally renowned scholars address themes that cross-cut her oeuvre: equality, violence, collective movements, subjectivity, sexuality and power. Mitchell herself contributes a chapter and an afterward.

Singularities Andre Lepecki, 2016-06-17 How does the production of performance engage with the fundamental issues of our advanced neo capitalist age Andr Lepecki surveys a decade of experimental choreography to uncover the dual meaning of performance in the twenty first century not just an aesthetic category but a mode of political power He demonstrates the enduring ability of performance to critique and subvert this power examining this relationship through five singularities in contemporary dance thingness animality persistence darkness and solidity Exploring the works of Mette Ingvarsen Yvonne Rainer Ralph Lemon J r me Bel and others Lepecki uses his concept of singularity the resistance of categorization and aesthetic identification to examine the function of dance and performance in political and artistic debate **Time** Joel Burges, Amy Elias, 2016-08-02 The critical condition and historical motivation behind Time Studies The concept of time in the post millennial age is undergoing a radical rethinking within the humanities Time A Vocabulary of the Present newly theorizes our experiences of time in relation to developments in post 1945 cultural theory and arts practices Wide ranging and theoretically provocative the volume introduces readers to cutting edge temporal conceptualizations and investigates what exactly constitutes the scope of time studies Featuring twenty essays that reveal what we talk about when we talk about time today especially in the areas of history measurement and culture each essay pairs two keywords to explore the tension and nuances between them from past future and anticipation unexpected to extinction adaptation and serial simultaneous Moving beyond the truisms of postmodernism the collection newly theorizes the meanings of temporality in relationship to aesthetic cultural technological and economic developments in the postwar period This book thus assumes that time not space as the postmoderns had it is central to the contemporary period and that through it we can come to terms with what contemporaneity can be for human beings caught up in the historical present In the end Time reveals that the present is a cultural matrix in which overlapping temporalities condition and compete for our attention Thus each pair of terms presents two temporalities yielding a generative account of the time or times in which we live Artists Respond Melissa Ho, Thomas Crow, Erica Levin, Mignon Nixon, Martha Rosler, Smithsonian American Art Museum, 2019-04-02 Published in conjunction with the exhibition of the same name on view at the Smithsonian American Art Museum Washington DC March 15 2019 to August 18 2019 Found Sculpture and Photography from Surrealism to Contemporary Art Julia Kelly, 2017-07-05 Taking its departure point from the 1933 surrealist photographs of involuntary sculptures by Brassa nd Dal Found Sculpture and Photography from Surrealism to Contemporary Art offers fresh perspectives on the sculptural object by relating it to both surrealist concerns with chance and the crucial role of photography in framing the everyday This collection of essays questions the nature of sculptural practice looking to forms of production and reproduction that blur the boundaries between things that are made and things that are found One of the book s central themes is the interplay of presence and absence in sculpture as it is highlighted disrupted or multiplied through photography s indexical nature The essays examine the surrealist three dimensional object its relation to and transformation through photographs as well as the enduring legacies of

such concerns for the artwork's materiality and temporality in performance and conceptual practices from the 1960s through the present *Found Sculpture and Photography* sheds new light on the shifts in status of the art object challenging the specificity of visual practices pursuing a radical interrogation of agency in modern and contemporary practices and exploring the boundaries between art and everyday life
