and Art in the Heart of Modern Manhattan Aaron Rosen, 2017-07-28 When you re in New York the sculptor Louise Nevelson once said you re in perpetual resurrection She might have said the same thing about St Peter s Lutheran Church set in the heart of midtown Manhattan In the 1970s the church made a radical move scrapping its neo gothic building for a sleek modern structure in the shadow of a skyscraper The transformation was not just architectural Inside Nevelson created a shimmering chapel while over the years artists and designers such as Willem de Kooning Kiki Smith and Massimo and Lella Vignelli produced works for the sanctuary This fusion of modern art architecture and design was complemented by an innovative jazz ministry including funerals for Billy Strayhorn and John Coltrane and performances by Duke Ellington and other jazz legends For the first time this volume examines the astounding cultural output of this single church Just as importantly the story of St Peter s serves as a springboard for wider reflections on the challenges and possibilities which arise when religion and art intersect in the modern city Working from a wide range of disciplines including art history theology musicology and cultural studies a distinguished group of scholars demonstrate that this church at the center of New York City deserves an equally central place in contemporary scholarship **Contemporary Music and Spirituality** Robert

Sholl, Sander Van Maas, 2016-08-12 The flourishing of religious or spiritually inspired music in the late twentieth and early twenty first centuries remains largely unexplored The engagement and tensions between modernism and tradition and institutionalized religion and spirituality are inherent issues for many composers who have sought to invoke spirituality and Otherness through contemporary music Contemporary Music and Spirituality provides a detailed exploration of the recent and current state of contemporary spiritual music in its religious musical cultural and conceptual philosophical aspects At the heart of the book are issues that consider the role of secularization the claims of modernity concerning the status of art and subjective responses such as faith and experience The contributors provide a new critical lens through which it is possible to see the music and thought of Cage Ligeti Messiaen Stockhausen as spiritual music The book surrounds these composers with studies of and by other composers directly associated with the idea of spiritual music Harvey Gubaidulina MacMillan P rt Pott and Tavener and others Adams Birtwistle Ton de Leeuw Ferneyhough Ustvolskaya and Vivier who have created original engagements with the idea of spirituality Contemporary Music and Spirituality is essential reading for humanities scholars

and students working in the areas of musicology music theory theology religious studies philosophy of culture and the history of twentieth century culture *Mary Magdalene* Diane Apostolos-Cappadona, 2023-02-23 From faithful apostle and seductress to feminist icon Mary Magdalene's many complex roles in Christian history have fascinated us for 2000 years Illustrated in full colour this visual history reveals how images and presentations have created a Mary who is often far different from the real woman the first witness of the Resurrection in the gospels or even from her appearances in the works of the Church Fathers Beginning with the earliest sources uncover who the real Mary was and what she meant in her own time before embarking on a fast paced tour of Magdalene's depictions in great works of art forgotten masterpieces and contemporary visual culture Considering relics statuary paintings sculpture and recent works for stage and screen discover how Mary Magdalene has been seen across time as a witness a sinner a penitent a contemplative a preacher and a patroness Above all her complex roles Mary has emerged as a powerful feminist icon the closest person to Jesus himself with a visual history as rich and varied as the roles she has fulfilled in numerous contexts of faith and worship for two millennia

Religion and Popular Culture Adam Possamai, 2005 This book views itself as the hyper real testament of new religious phenomena by addressing the theories among many others of Baudrillard Jameson and Lipovetsky and by exploring the use of fictions such as those from Harry Potter The Matrix Star Trek Buffy and Lord of the Rings **Museums, Equality and Social Justice** Richard Sandell, Eithne Nightingale, 2013-05-20 The last two decades have seen concerns for equality diversity social justice and human rights move from the margins of museum thinking and practice to the core The arguments both moral and pragmatic for engaging diverse audiences creating the conditions for more equitable access to museum resources and opening up opportunities for participation now enjoy considerable consensus in many parts of the world A growing number of institutions are concerned to construct new narratives that represent a plurality of lived experiences histories and identities which aim to nurture support for more progressive ethically informed ways of seeing and to actively inform contemporary public debates on often contested rights related issues At the same time it would be misleading to suggest an even and uncontested transition from the museum as an organisation that has been widely understood to marginalise exclude and oppress to one which is wholly inclusive Moreover there are signs that momentum towards making museums more inclusive and equitable is slowing down or in some contexts reversing Museums Equality and Social Justice aims to reflect on and crucially to inform debates in museum research policy and practice at this critical time It brings together new research from academics and practitioners and insights from artists activists and commentators to explore the ways in which museums galleries and heritage organisations are engaging with the fast changing equalities terrain and the shifting politics of identity at global national and local levels and to investigate their potential to contribute to more equitable fair and just societies *Making Sense of Pain: Critical and Interdisciplinary Perspectives* Jane Fernandez, 2020-05-18 This conference proceeding provides an attempt to extend the conversation on pain the boundaries of the word painA are

characteristically blurred by connotations of suffering and trauma The variety of papers in this collection transgress these boundaries knowingly inviting a more expansive rather than narrow definition of pain
