THE EXPERIENCE OF MODERNITY

Marshall Berman

All That Is Solid Melts Into Air The Experience Of Modernity

JR Anderson

All That Is Solid Melts Into Air The Experience Of Modernity:

All that is Solid Melts Into Air Marshall Berman, 1983 The experience of modernization the dizzying social changes that swept millions of people into the capitalist world and modernism in art literature and architecture are brilliantly integrated in this account All That Is Solid Melts into Air Marshall Berman, 1988-06-07 A bubbling caldron of ideas Enlightening and valuable Mervyn Jones New Statesman The political and social revolutions of the nineteenth century the pivotal writings of Goethe Marx Dostoevsky and others and the creation of new environments to replace the old all have thrust us into a modern world of contradictions and ambiguities In this fascinating book Marshall Berman examines the clash of classes histories and cultures and ponders our prospects for coming to terms with the relationship between a liberating social and philosophical idealism and a complex bureaucratic materialism From a reinterpretation of Karl Marx to an incisive consideration of the impact of Robert Moses on modern urban living Berman charts the progress of the twentieth century experience He concludes that adaptation to continual flux is possible and that therein lies our hope for achieving a truly modern society **All That Is Solid Melts Into Air** Marshall Berman, 2000-05-20 A bubbling caldron of ideas Enlightening and valuable Mervyn Jones New Statesman The political and social revolutions of the nineteenth century the pivotal writings of Goethe Marx Dostoevsky and others and the creation of new environments to replace the old all have thrust us into a modern world of contradictions and ambiguities In this fascinating book Marshall Berman examines the clash of classes histories and cultures and ponders our prospects for coming to terms with the relationship between a liberating social and philosophical idealism and a complex bureaucratic materialism From a reinterpretation of Karl Marx to an incisive consideration of the impact of Robert Moses on modern urban living Berman charts the progress of the twentieth century experience He concludes that adaptation to continual flux is possible and that therein lies our hope for achieving a truly modern society Bureaucratic Representation Hall Thomas Wilson, 2021-11-22 This text discusses the central role of bureaucratic representation as a key vehicle for representing the general interests of most citizens in a way that is consistently superior to electoral systems in representative democracies particularly large states Though formal elections remain indispensable bureaucracies in the capital public and social sectors have used their superior expertise and continuity combined with social policies like affirmative action and equal pay to achieve responsible discretion and creative implementation *Marxism in the Chinese Revolution* Arif Dirlik, 2005-06-07 Representing a lifetime of research and writing by noted historian Arif Dirlik the essays collected here explore developments in Chinese socialism and the issues that have occupied historians of the Chinese revolution for the past three decades Dirlik engages Chinese socialism critically but with sympathy for the aspirations of revolutionaries who found the hope of social political and cultural liberation in Communist alternatives to capitalism and the intellectual inspiration to realize their hopes in Marxist theory The book s historical approach to Marxist theory emphasizes its global relevance while avoiding dogmatic and Eurocentric limitations These

incisive essays range from the origins of socialism in the early twentieth century through the victory of the Communists in mid century to the virtual abandonment by century s end of any pretense to a socialist revolutionary project by the leadership of the Chinese Communist Party All that remains of the revolution in historical hindsight are memories of its failures and misdeeds but Dirlik retains a critical perspective not just toward the past but also toward the ideological hegemonies of the present Taken together his writings reaffirm the centrality of the revolution to modern Chinese history They also illuminate the fundamental importance of Marxism to grasping the flaws of capitalist modernity despite the fact that in the end the socialist response was unable to transcend the social and ideological horizons of capitalism

Postmodern Time and Space in Fiction and Theory Michael Kane, 2020-01-14 Postmodern Time and Space in Fiction and Theory seeks to place the contemporary transformation of notions of space and time often attributed to the technologies we use in the context of the ongoing transformations of modernity Bringing together examples of modern and contemporary fiction from Defoe to DeLillo Frankenstein to Finnegans Wake and theoretical discussions of the modern and the post modern the author explores the legacy of modern transformations of space and time under five headings The Space of Nature The Space of the City Postmodern or Most Modern Time The Time and Space of the Work of Art in the Age of Digital Reproduction and Travel from Modernity to These five essays re examine the meanings of modernity and its aftermath in relation to the spaces and times of the natural the urban and the media environment

History and Cultural Theory Simon Gunn, 2014-05-22 In recent times there has been recognition of the growing influence of cultural theory on historical writing Foucault Bourdieu Butler and Spivak are just some of the thinkers whose ideas have been taken up and deployed by historians What are these ideas and where do they come from How have cultural theorists thought about history And how have historians applied theoretical insights to enhance their own understanding of events in the past This book provides a wide ranging and authoritative guide to the often vexed and controversial relationship between history and contemporary theory It analyses the concepts that concern both theorists and historians such as power identity modernity and postcolonialism and offers a critical evaluation of them from an historical standpoint Written in an accessible manner History and Cultural Theory gives historians and students an invaluable summary of the impact of cultural theory on historiography over the last twenty years and indicates the likely directions of the subject in the future

Heritage Rodney Harrison, 2013 Historic sites memorials national parks museumsewe live in an age in which heritage is ever present But what does it mean to live amongst the spectral traces of the past the heterogeneous piling up of historic materials in the present How did heritage grow from the concern of a handful of enthusiasts and specialists in one part of the world to something which is considered to be universally cherished And what concepts and approaches are necessary to understanding this global obsession Over the decades since the adoption of the World Heritage Convention various e crises e tm of definition have significantly influenced the ways in which heritage is classified perceived and managed in contemporary global societies Taking an interdisciplinary approach to the many tangible

and intangible things now defined as heritage this book attempts simultaneously to account for this global phenomenon and the industry which has grown up around it as well as to develop a toolkit of concepts with which it might be studied In doing so it provides a critical account of the emergence of heritage studies as an interdisciplinary field of academic study This is presented as part of a broader examination of the function of heritage in late modern societies with a particular focus on the changes which have resulted from the globalisation of heritage during the late twentieth and early twenty first centuries Developing new theoretical approaches and innovative models for more dialogically democratic heritage decision making processes Heritage Critical Approaches unravels the relationship between heritage and the experience of late modernity whilst reorienting heritage so that it might be more productively connected with other pressing social economic political and environmental issues of our time

The Routledge Companion to Asian American and Pacific Islander Literature Rachel Lee, 2014-06-05 The Routledge Companion to Asian American and Pacific Islander Literature offers a general introduction as well as a range of critical approaches to this important and expanding field Divided into three sections the volume Introduces keywords connecting the theories themes and methodologies distinctive to Asian American Literature Addresses historical periods geographies and literary identities Looks at different genre form and interdisciplinarity With 41 essays from scholars in the field this collection is a comprehensive guide to a significant area of literary study for students and teachers of Ethnic American Asian diasporic and Pacific Islander Literature Contributors Christine Bacarezza Balance Victor Bascara Leslie Bow Joshua Takano Chambers Letson Tina Chen Anne Anlin Cheng Mark Chiang Patricia P Chu Robert Diaz Pin chia Feng Tara Fickle Donald Goellnicht Helena Grice Eric Hayot Tamara C Ho Hsuan L Hsu Mark C Jerng Laura Hyun Yi Kang Daniel Y Kim Jodi Kim James Kyung Jin Lee Rachel C Lee Jinqi Ling Colleen Lye Sean Metzger Susette Min Susan Y Najita Viet Thanh Nguyen Erin Khu Ninh Eve Oishi Josephine Nock Hee Park Steven Salaita Shu mei Shi Rajini Srikanth Brian Kim Stefans Erin Suzuki Theresa Tensuan Cynthia Tolentino Thuy Linh Nguyen Tu Eleanor Ty Traise Yamamoto Timothy Yu

Afterness Gerhard Richter, 2011-10-25 Gerhard Richter's groundbreaking study argues that the concept of afterness is a key figure in the thought and aesthetics of modernity It pursues questions such as What does it mean for something to follow something else Does that which follows mark a clear break with what came before it or does it in fact tacitly perpetuate its predecessor as a consequence of its inevitable indebtedness to the terms and conditions of that from which it claims to have departed Indeed is not the very act of breaking with and then following upon a way of retroactively constructing and fortifying that from which the break that set the movement of following into motion had occurred The book explores the concept and movement of afterness as a privileged yet uncanny category through close readings of writers such as Kant Kafka Heidegger Bloch Benjamin Brecht Adorno Arendt Lyotard and Derrida It shows how the vexed concepts of afterness following and coming after shed new light on a constellation of modern preoccupations including personal and cultural memory translation photography hope and the historical and conceptual specificity of what

has been termed after Auschwitz The study's various analyses across a heterogeneous collection of modern writers and thinkers diverse historical moments of articulation and a range of media conspire to illuminate Lyotard's apodictic statement that after philosophy comes philosophy But it has been altered by the after As Richter's intricate study demonstrates much hinges on our interpretation of the after After all our most fundamental assumptions concerning modern aesthetic representation conceptual discourse community subjectivity and politics are at stake
